BNPP AM is authorized in France under number GP96002 and regulated by the AMF.

Date of production of the KID: 10/04/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is established as an FCP (fonds commun de placement — mutual investment fund) subject to the provisions of the French Monetary and Financial Code and UCITS Directive 2009/65/EC as amended.

Term

The Product was initially established for a term of 99 years.

BNPP AM is entitled to dissolve the Product unilaterally. Dissolution may also take place in the event of a merger, total redemption of the units or when the net assets of the Product are less than the minimum regulatory amount.

Objectives

Management objective: Classified as a eurozone country equities fund, the objective of the Product is to outperform, net of fees, the MSCI EMU (EUR) NR index (calculated with net dividends reinvested) over a minimum investment horizon of five years, via capital appreciation by investing in equity and interest rate product markets through UCITS or AIFs and securities held directly. To achieve this objective, the Product implements an investment strategy focused on the capital gains outlook of the financial instruments making up the Product portfolio. The management objective incorporates criteria for good governance and sustainable development. It is managed actively against its benchmark and by adopting a socially responsible investment (SRI) approach. The composition of the portfolio may deviate significantly from the distribution of the benchmark.

Key characteristics of the Product: The investment strategy is based on the management of a portfolio structured around two components: on the one hand, fundamental securities with low volatility and significant growth over several years, and on the other hand opportunity securities aiming to take advantage of specific market situations (company turnarounds, yield or growth anomalies).

The investment process involves two stages: 1) selecting lists from the investment universe through quantitative sorting; and 2) building a portfolio based on qualitative factors (studies, meetings with analysts or executives). The relative size of the two components depends on the management team's assessment of the financial environment.

The Product comprises direct investments and undertakings for collective investment (UCIs). It does not have an SRI label.

a) SRI strategy for direct investments: The non-financial analysis consists of integrating an SRI approach when selecting securities. In order to be included in the portfolio, companies must comply with the following environmental, social and governance (ESG) standards: compliance with sector-specific policies on controversial activities; and exclusion of companies that engage in coal-related activities and/or are in contravention of any of the Ten Principles of the United Nations Global Compact and/or the OECD Guidelines for Multinational Enterprises and/or obtain more than 10% of their turnover from controversial activities - such as alcohol, tobacco and arms - and/or have the worst ESG practices within each business sector. The Management Company's specialist analysts focus their attention on ESG criteria using the best-in-class approach, in order to seek to identify the companies with the best ESG rankings in their respective sectors. As regards the analysis of ESG practices, companies are evaluated on the basis of non-exhaustive ESG criteria, i.e. environmental (including global warming and combating greenhouse gas emissions), social (including managing employment and restructuring, and workplace accidents), and governance (including the independence of Boards of Directors from their senior management and respect for the rights of minority shareholders). The Product follows a significant engagement approach in regard to integrating ESG criteria into management.

The Product invests at least 90% of its net assets in securities that have been analysed in terms of their ESG criteria by a dedicated team of ESG analysts from the Management Company. Following this analysis, it will apply the rating improvement approach, whereby the average ESG rating of the portfolio is higher than the rating of the MSCI EMU (EUR) NR index (calculated with net dividends reinvested), after eliminating at least 20% of the lowest-rated securities in this index. The Management Company may select stocks outside its benchmark index. However, it ensures that the selected benchmark index is a relevant comparison for the Product's ESG rating.

b) SRI strategy concerning investments in UCIs (up to 10% of net assets): The management team selects UCIs using SRI filters and adopts a best-in-class approach. It systematically invests in UCIs with the SRI label or which themselves comply with the quantitative criteria of the significantly binding category.

c) Main methodological limitations of the non-financial strategy: Some companies appearing in the portfolio may have ESG practices that can be improved and/or may be exposed to certain sectors in which environmental, social or governance issues remain significant.

The Product invests in securities of large-, mid- and small-cap companies from all sectors (up to a limit of 10% of net assets in this last case) issued on the markets of one or more eurozone countries. It may invest in shares issued on the stock exchanges of various countries in the European Economic Area (EEA). It does not impose any specific geographical distribution of its investments within the eurozone. In order to be eligible for the French equity savings plan (plan d'épargne en actions - PEA), a minimum of 75% of the Product is invested in equities that are eligible for the PEA.

On an ancillary basis, for cash management purposes, the Product may invest in money market instruments or negotiable debt securities, with no restrictions on duration, sensitivity or issuer quality. Issuers may be public- or private-sector institutions. It may also hold up to 10% of its net assets in units or shares of foreign investment funds or UCIs.

The manager may use derivative instruments traded on French or foreign regulated or over-the-counter futures markets to hedge the Product against, and/or expose it to, risks associated with equities and/or indices and/or interest rates and/or foreign exchange rates. The overall exposure shall not exceed 100% of net assets.

Redemption requests are cleared by BNP Paribas from Monday to Friday at 5.00 p.m., executed on the basis of the net asset value of the next business day and settled and delivered within five days following the net asset value calculation date.

Allocation of net income and net realised capital gains: Accumulation.

For more details, please refer to the Product's prospectus.

Other information: The Product may not be appropriate for investors who plan to withdraw their money within five years.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years. The product is not marketed to US investors that fall within the definition of restricted persons, as summarised in the Product's prospectus.

- Custodian: BNP PARIBAS
- The prospectus, the key information document(s) for the other share classes of this Product, the net asset value and the latest annual and periodical documents are available on the website: www.bnpparibas-am.com. They can be sent to you free of charge upon written request to: BNP PARIBAS ASSET MANAGEMENT Europe - Service Client - TSA 90007 - 92729 Nanterre CEDEX, France.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. Investment in equity instruments justifies the risk category. These are subject to significant price fluctuations, which are often amplified in the short term. In other words, the potential losses related to the Product's future results are medium, and if the market situation deteriorates, it is possible that the value of your investment will be affected when you request the redemption of your units.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risk materially relevant to the Product not included in the summary risk indicator:

- Risk linked to derivatives: the use of derivatives can amplify fluctuations in the value of investments, thus increasing the volatility of returns.

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years Example Investment: EUR 10,000		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,025.97 EUR	2,885.11 EUR
	Average return each year	-59.74%	-22.01%
Unfavourable	What you might get back after costs	8,148.33 EUR	10,391.43 EUR
	Average return each year	-18.52%	0.77%
Moderate	What you might get back after costs	10,612.84 EUR	15,198 EUR
	Average return each year	6.13%	8.73%
Favourable	What you might get back after costs	14,425.42 EUR	18,715.03 EUR
	Average return each year	44.25%	13.35%

The below scenarios occurred for an investment using a suitable proxy.

The favorable scenario occurred for an investment between 2020 and 2025.

The moderate scenario occurred for an investment between 2019 and 2024.

The unfavorable scenario occurred for an investment between 2025 and 2026.

WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The Product is a fund of jointly owned financial instruments and deposits separate from BNPP AM.

In the event that BNPP AM defaults, the assets of the Product held by the depositary will not be affected.

However, in the event that the depositary defaults, the Product's risk of financial loss is mitigated by the legal segregation of the depositary's assets from those of the Product.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	308.64 EUR	1,061.3 EUR
Annual Cost Impact (*)	3.11%	1.65% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.38% before costs and 8.73% after costs. We may share the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	Up to 2.00% of the amount you pay in when entering this investment.	Up to 200 EUR
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.99% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2025.	97.02 EUR
Transaction costs	0.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards or downwards.	11.62 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

The reimbursements modalities are detailed in the prospectus of the fund.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product. The Product has a cap on the redemption of units enabling the Management Company to defer redemption requests in exceptional circumstances and in accordance with the conditions set out in the Product's prospectus.

HOW CAN I COMPLAIN?

For any complaints, investors are invited to contact their usual advisor at the establishment that advised them on the Product. They can also contact BNPP AM via its website www.bnpparibas-am.fr (Complaints Management Policy in the footer at the bottom of the page), by sending a registered letter with acknowledgement of receipt to BNP PARIBAS ASSET MANAGEMENT Europe - Client Service - TSA 90007 - 92729 Nanterre CEDEX, France, France, or by sending an email to amfr.reclamations@bnpparibas.com.
