What is this product?

Type

The Fund is an Irish collective asset-management vehicle ("ICAV"). The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide regular income and capital growth by tracking as closely as possible the performance of the FTSE IdealRatings Sukuk Index (total return) (the Index), while maintaining adherence to Shariah principles.

Investment Policy:

The Index is comprised of global Islamic fixed income securities, also known as Sukuk. The Fund invests in, or gain exposure to US Dollar denominated, Investment Grade Sukuk that are Shariah-compliant, and issued in the global markets, all of which are Index constituents. The currency of the Index is USD and returns are unhedged.

The Fund is passively managed and utilises an investment technique called optimisation, which seeks to minimise the difference in return between the Fund and the Index by taking into account tracking error (the risk that the Fund return varies from the Index return) and trading costs when constructing a portfolio. The Fund will not necessarily invest in every constituent of the Index, or invest proportionally to each constituents' Index weight. If the overall portfolio matches the characteristics of the Index, the Fund can also invest in assets outside of the Index, such as: securities which are expected to provide similar performance and risk characteristics to certain Index constituents; Sukuk with a Credit Rating of Ba1 BB+ / BB+ and below may be held for efficient portfolio management purposes; and cash and Sukuk with up to 1 year to maturity for liquidity and cash management purposes. When making investment decisions, the Investment Adviser will only proceed with the investment where it complies with Shariah principles.

The Shariah committee monitors the Fund periodically and issues an annual Shariah certificate on the Fund's compliance with Shariah principles. This certificate is included in the annual report of the Fund as a confirmation of the Shariah compliance for that year. Before investing, please do check that this Fund meets your Shariah requirements, and if in any doubt please consult an adviser. Screening of the Shariah compliance of global Sukuk is based on the methodology of IdealRatings and Sukuk with a maturity of 1 year and above are eligible for investment.

Cash balances will be deposited on terms which either grant no return on the sum deposited or grant such a return on a Shariah-compliant basis.

The Fund may invest up to 10% of its assets in cash and may invest up to 10% of its assets in Shariah-compliant funds.

Credit Ratings of the investments may vary from time to time but will be at least investment grade.

The Fund may also invest in Shariah-compliant derivatives for currency hedging.

- The reference currency of the Fund is USD. The reference currency of this share class is USD.
- Income is reinvested.
- Authorised Participants only may deal in the Fund's ETF Shares directly with the UCITS.
- The Fund's ETF Shares are listed on one or more stock exchange(s).
- You may sell your investment on most working days.
- The anticipated level of tracking error in normal market conditions is expected to be 0.65%.

Intended Retail Investor

Designed for investors with a focus on income and planning to invest for at least 3 years. The Fund may appeal to investors who are looking for a core Shariah complaint Sukuk investment and are interested in low cost exposure to the USD denominated Sukuk market.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

Additional Information:

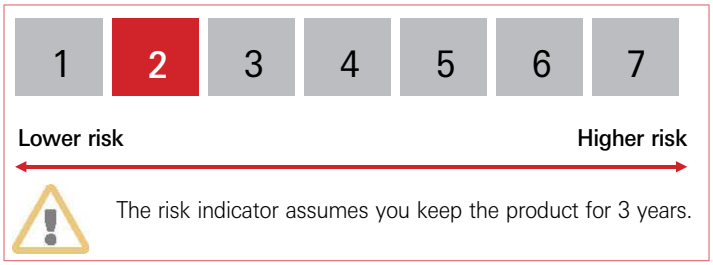
This document describes a single share class of a sub-fund of the UCITS. Further information about the UCITS including the Prospectus, the most recent annual and semi-annual reports of the UCITS and the latest prices of shares, may be obtained free of charge, in English, from the Administrator by emailing ifsinvestorqueries@hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and French. Details of the underlying investments of the fund are available on www.global.assetmanagement.hsbc.com. The indicative intra-day net asset value of the fund is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including www.reuters.com. The Prospectus, annual and semi-annual reports are prepared for the entire UCITS.

The Depositary is HSBC Continental Europe. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds.

It is possible to switch your shares into shares of a different share class or sub-fund within the ICAV, however the conversion of the ETF Shares into Non-ETF Shares and vice versa is not permitted. Details of how to do this are in the "How to convert between sub-funds / Classes" section of the Prospectus.

What are the risks and what could I get in return?

Risk Indicator



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 3 Years **Investment of USD 10,000**		**If you exit after 1 year**	**If you exit after 3 years**
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenario	What you might get back after costs	USD8,880	USD9,040
	Average return each year	-11.24 %	-3.32 %
Unfavourable Scenario	What you might get back after costs	USD8,880	USD9,410
	Average return each year	-11.24 %	-2.01 %
Moderate Scenario	What you might get back after costs	USD10,370	USD11,210
	Average return each year	3.69 %	3.89 %
Favourable Scenario	What you might get back after costs	USD11,150	USD12,330
	Average return each year	11.52 %	7.22 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between October 2020 and October 2023. The moderate scenario occurred for an investment between July 2016 and July 2019. The favourable scenario occurred for an investment between June 2018 and June 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations.

In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Recommended Holding Period: 3 Years Investment of USD 10,000	If you exit after 1 year	If you exit after 3 years
Total Costs	37 USD	125 USD
Annual cost impact % *	0.4%	0.4% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.28% before costs and 3.89% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early?

Recommended Holding Period: 3 years

Investment in this Fund may be appropriate for investors who plan to invest over a medium term. There are no penalties if you wish to redeem your holdings in the Fund prior to the recommended holding period. The Fund may, in exceptional circumstances, employ certain tools and techniques to protect investors from stressed market conditions or from the detrimental effect of large inflows or outflows. These tools help to reduce the impact of dilution and ensure that transaction costs are borne more fairly by investors when entering or exiting the fund. Investors may see a price adjustment or, in more severe cases, may face delays in or a suspension of the processing of subscriptions or redemptions. More detail can be found in the prospectus. An exit fee may be applicable, please refer to the "Composition of Costs" table for details.
