### What is this Fund?

<b>Type</b>	<p>The Fund is a sub-fund of HANetf ICAV (the <b>ICAV</b>), an open-ended Irish collective asset-management vehicle umbrella fund with segregated liability between sub-funds, with variable capital established under the laws of Ireland and authorised by the Central Bank under the UCITS Regulation 2011, as amended.</p> <p>The fund is actively managed and aims to achieve income growth over the medium to long term.</p>
<b>Objectives and Policies</b>	<p>The Fund will invest, in a manner consistent with the UCITS Regulations and Central Bank requirements, in a portfolio of fixed income securities primarily of Latin American issuers which are listed or traded on a Regulated Market as set out in Appendix 1 of the Prospectus. Issuers will primarily be located in those countries of North, South and Central America where Spanish and Portuguese is spoken (<b>Latin America</b>).</p> <p>The Fund will invest in a portfolio of fixed income securities comprising SEC registered and/or securities issued pursuant to Regulation S of the United State's Securities Act of 1993 (Regulation S Securities) issued in US dollars by corporates, sovereigns and quasi-sovereigns in Latin America. The Investment Manager will select the fixed income securities with a view to generating income, buying securities below relative value and avoiding defaults. The investment process is ultimately intended to provide steady investment income to investors.</p> <p>The Fund may also invest in contingent convertible instruments (CoCo Bonds), also known as "CoCos". CoCos are a form of hybrid debt instrument intended to either convert into equity or have their principal partially or completely written off with the option of revaluation under certain circumstances. Such instruments may be senior and/or subordinated. Investment in, or exposure to, CoCos will be limited to 10% of the Fund's net assets.</p>
<b>Depository</b>	J.P. Morgan SE - Dublin Branch (the <b>Depository</b> )
<b>Additional Information</b>	<p>Shares of the Fund are listed on one or more stock exchanges. Typically, only authorised participants (i.e., brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell shares on exchange on each day the relevant stock exchange is open.</p> <p>Income received by the Fund's investments will be distributed in respect of the shares of this class.</p> <p>Further information such as fund prospectus, latest annual report and latest NAV can be obtained free of charge under <a href="http://www.hanetf.com">www.hanetf.com</a></p>
<b>Term</b>	The fund has no minimum fixed term, although the recommended holding period is 5 years. Termination of the Fund is only possible in those cases expressly provided for in the Prospectus or Supplement of the Fund.
<b>Intended retail investor</b>	The Fund is intended to be offered to retail investors who are seeking capital growth over the long term. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Fund are expected to be investors who want to take exposure to the markets covered by the Fund's investment policy and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

## What are the risks and what could I get in return?

### Summary Risk Indicator

The risk indicator assumes you keep the Fund for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other Funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

**Be aware of currency risk. The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund. This risk is not considered in the indicator shown above.**

The Fund does not include any protection from future market performance so you could lose some or all of your investment. Investment by the Fund in other collective investment schemes, emerging markets and use of derivatives may involve additional risks. Please refer to the "Risk Factors" sections of the Prospectus and the Fund's Supplement which are available at [www.hanetf.com](http://www.hanetf.com).

### Performance Scenarios

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Example Investment: 10,000 USD		Recommended Holding Period: 5 years	
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended Holding Period)
<b>Minimum</b> There is no minimum guaranteed return. You could lose some or all of your investment			
<b>Stress scenario</b>	What you might get back after costs	8,400 USD	7,820 USD
	Average return	-16.0%	-4.8%
<b>Unfavourable scenario</b>	What you might get back after costs	8,330 USD	9,590 USD
	Average return	-16.7%	-0.8%
<b>Moderate scenario</b>	What you might get back after costs	10,650 USD	11,440 USD
	Average return	6.5%	2.7%
<b>Favourable scenario</b>	What you might get back after costs	12,940 USD	14,470 USD
	Average return	29.4%	7.7%

The figures shown include all the costs of the Fund itself but may not include all the costs that you pay to your advisor or distributor/and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to market risk exposure, you can lose some or all of the amount invested during the recommended holding period of 5 years.

- **The stress scenario** shows what you might get back in extreme market circumstances.
- **Unfavourable scenario:** This type of scenario occurred for an investment between 10/2017 and 10/2022.
- **Moderate scenario:** This type of scenario occurred for an investment between 10/2019 and 10/2024.
- **Favourable Scenario:** This type of scenario occurred for an investment between 12/2015 and 12/2020.

### What happens if HANetf Management Limited is unable to pay out?

HANetf Management Limited, as PRIIPS manufacturer of the Fund, is not obliged to make any payment in relation to the Fund, such obligations being those of the Fund itself. The assets of the Fund are kept separately from those of the Manager. An insolvency or default of the Manager should not result in the Fund suffering any financial loss in relation to its assets. The amount the Fund is obliged to pay out is linked to the net assets of the Fund so it is unlikely that the Fund will be unable to pay out unless there is an operational error or an insolvency or default by the Depositary which holds the Fund's assets on its behalf. In the event of the insolvency or default of the Depositary, securities held by the depositary on behalf of the Fund should be protected but the Fund may suffer loss in relation to cash and certain other assets which are not protected. Investment in the Fund is not covered by any investor protection scheme.

### What are the Costs?

The party advising on or selling you this Fund may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover one-off, ongoing and incidental costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return).
- For the other holding periods we have assumed the Fund performs as shown in the moderate scenario.
- USD 10,000 is invested.

## How long should I hold the Fund and can I take my money out early?

The Fund has no required minimum holding period but as it is designed for longer-term investment it is recommended that you stay invested for at least 5 years.

Investors are able to sell their investment on any day on which banks are open in the UK. When you cash in or if you switch between sub-funds, there may be a delay of up to 5 days for this Fund. By selling the Fund earlier than the recommended holding period, you may receive back more or less than you would have received if you had stayed invested until recommended holding period.

A redemption or exchange fee of up to 3% may be payable to the Manager by authorised participants in such circumstances. Other Investors, i.e. those who sell shares typically on exchange, may be charged additional fees by their broker.

You can make regular and one-off withdrawals. Withdrawals could be greater than any growth achieved and could reduce your investment's value below the amount invested. You should refer to the Prospectus and Supplement for this Fund for the conditions that apply and information on tax.
