What is this product?

Type

This product is a UCITS Investment Fund.

Term

This product has no fixed end date. However the Sub-Fund, at its absolute discretion, can redeem all the shares of the Sub-Fund under the circumstances set out in the prospectus.

Objectives

Investment objective The investment objective of the Sub-Fund is to seek to generate returns which closely match the returns achieved on a portfolio of long-dated Euro denominated bonds by primarily investing in a broad range of Euro denominated money market instruments and fixed income securities.

Investment policies The Sub-Fund will passively invest primarily in Euro denominated fixed income securities issued by Eurozone governments.

Debt securities are securities which represent an obligation of the entity issuing the security to repay the amount received for the security plus interest. The interest rates paid may be variable or fixed and payment may be deferred or paid in kind. The Sub-Fund will primarily invest in long-dated bonds with a minimum long-term debt rating of at least C by Standard and Poor's, or equivalent by Moody's or other rating agency. In purchasing securities for the Sub-Fund, the Investment Manager (or its delegate) will also invest in bonds which have a short term (maturity of less than one year) debt rating of at least C by Standard and Poor's, or equivalent by Moody's or other rating agency. Where no rating agency is available, the Investment Manager (or its delegate) may assign its own rating, which must be deemed the equivalent of C or better as rated by Standard and Poor's, or equivalent by Moody's or other rating agency.

The investment manager will identify a basket of fixed securities and weights to create a portfolio of Euro denominated bonds with a maturity of approximately 16 years ("Portfolio"). The Sub-Fund will invest in the securities referred to in the Investment objective in order to seek to provide an exposure which closely matches the return of the Portfolio. The investment manager may use a bottom up and/or top down investment approach when selecting the underlying basket of securities. Certain indices may also be used in the management of the Sub-Fund, including for investment purposes, as detailed in the supplement.

The Sub-Fund may be fully invested in securities issued or guaranteed by any State, its constituent states, local authorises or public international bodies of which one or more States are members. The Sub-Fund can invest in the securities directly.

The Sub-Fund will not invest more than 20% of its assets in emerging markets.

The Sub-Fund may invest in zero coupon or delayed interest securities, which pay no cash income until maturity or a specified date when the securities begin paying current interest and are sold at substantial discounts from their value at maturity.

The Sub-Fund may use financial derivative instruments (instruments for which the price is dependent on one or more underlying asset, "FDI") for hedging, efficient portfolio management and/or investment purposes. FDI may enable the Sub-Fund to obtain market exposure up to 100% in excess of the value of the Sub-Fund's assets. The use of FDI may multiply the gains or losses made by the Sub-Fund on a given investment or on its investments generally.

Redemption and Dealing You can buy and sell shares in the Sub-Fund on demand each day which is a bank business day in Ireland or the United Kingdom ("Dealing Day").

Distribution Policy The Share Class will not distribute dividends. Income and capital gains from the Sub-Fund are reinvested.

Intended retail investor

The Sub-Fund is suitable for investors with at least basic knowledge of, and experience with, financial products, who understand the risks of the Sub-Fund including potential capital loss and who:

- seek to achieve investment objectives aligned with that of the Sub-Fund
- have a long-term investment horizon

Practical information

Depositary The Sub-Fund's assets are held through its depositary, State Street Custodial Services (Ireland) Limited.

Further information The Umbrella is constituted as an investment company with variable capital with segregated liability between sub-funds under Irish law. This means that the Sub-Fund's assets are maintained separately from the assets of other sub-funds and your investment in the Sub-Fund will not be affected by claims against any other sub-fund of the Umbrella. You may request the exchange of shares in this Sub-Fund for shares available in other Sub-Funds of MGI Funds plc on each Dealing Day. Additional information on exchanges is available in the prospectus. The prospectus, latest annual and semi-annual reports, which are prepared for the entire Umbrella, and information on other share classes are available free of charge in English on https://investment-solutions.mercer.com.
The net asset value per share is published on www.bloomberg.com.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.
This rates the potential losses from future performance at a medium level.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator other risks may affect the Sub-Fund's performance. Please refer to the supplement available free of charge at https://investment-solutions.mercer.com

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between August 2019 and August 2024.

Moderate: this type of scenario occurred for an investment between April 2017 and April 2022.

Favourable: this type of scenario occurred for an investment between June 2015 and June 2020.

What happens if Mercer Global Investments Management Limited is unable to pay out?

The Sub-Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Sub-Fund to investors from its own assets. The Sub-Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Sub-Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in UCITS, such as the Sub-Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	**10 EUR**	**50 EUR**
Annual cost impact*	**0.1%**	**0.1% each year**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.5% before costs and -0.6% after costs.
