What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of government bonds, while promoting environmental, social and governance (ESG) characteristics. The Fund aims to have a higher ESG score, calculated as a weighted average of the ESG scores given to the issuers in which the Fund has invested than the weighted average of the ESG scores of its reference benchmark.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

In normal market conditions, the Fund will invest at least 70% of its assets in investment grade bonds and other similar securities issued or guaranteed by governments, government-related entities and supranational entities that are based in developed or emerging markets.

The Fund includes the identification and analysis of a company's environmental and social factors and corporate governance practices as an integral part of the investment decision making process. Issuers considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for more details on excluded activities.

Environmental and social factors, corporate governance practices and excluded activities and the need for ESG due diligence will be identified and analysed using both HSBC's proprietary ESG Materiality Framework and scores as well as research & information provided by financial and non-financial data providers.

The Fund may invest up to 10% of its assets in onshore Chinese bonds traded on the China Interbank Bond Market (CIBM), up to 10% of its assets in asset backed securities (ABS) and mortgage-backed securities (MBS), up 10% in non-investment grade bonds, up to 10% in other funds and may invest in bank deposits, money market instruments for treasury purposes.

The Fund may hold shares (and securities similar to shares) received as a result of or in connection with a corporate action affecting existing portfolio holdings.

The Fund's primary currency exposure is to US Dollar (USD) denominated bonds. Non-USD exposures will normally be hedged into USD; non-USD exposures will be limited to 10% of assets and may be to emerging markets currencies.

The Fund may also invest in derivatives and may use them for hedging, cash flow management and efficient portfolio management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- The Fund may enter into securities lending transactions for up to 50% of its assets. However, this is not expected to exceed 45%.
- Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency GBP and the base currency of the Fund USD.
- Income is distributed.
- You may sell your investment on most working days.
- The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, JP Morgan GBI Global Hedged USD.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The deviation of the Fund's performance and underlying investments' weightings relative to the benchmark are monitored, but not constrained, to a defined range.

Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon and is intended for investors aiming for exposure to asset classes which may be subject to moderate volatility. The Fund may be suitable for investors looking for a core investment in their portfolio.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

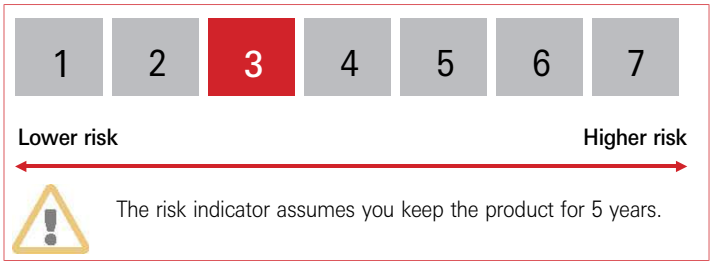
What are the risks and what could I get in return?

Risk Indicator



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years Investment of GBP 10,000		If you exit after 1 year	If you exit after 5 years
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenario	What you might get back after costs	GBP6,280	GBP5,610
	Average return each year	-37.18 %	-10.93 %
Unfavourable Scenario	What you might get back after costs	GBP8,250	GBP8,320
	Average return each year	-17.53 %	-3.61 %
Moderate Scenario	What you might get back after costs	GBP9,710	GBP10,150
	Average return each year	-2.91 %	0.29 %
Favourable Scenario	What you might get back after costs	GBP11,590	GBP11,880
	Average return each year	15.92 %	3.50 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between June 2020 and June 2025. The moderate scenario occurred for an investment between August 2018 and August 2023. The favourable scenario occurred for an investment between April 2016 and April 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

Recommended Holding Period: 5 Years Investment of GBP 10,000	If you exit after 1 year	If you exit after 5 years
Total Costs	366 GBP	623 GBP
Annual cost impact % *	3.7%	1.2% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.50% before costs and 0.29% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.

Composition of costs
