What is this product?

Type

This product is a Class of Unit of the sub-fund Diversificato 40 (the "Fund") which is part of Eurizon Next 2.0, an open-ended common fund in transferable securities ("FCP") qualifying as a UCITS.

Term

There is no maturity date for this product. The product could be unilaterally closed or merged following notice to investors in the conditions led down in the Prospectus.

Objectives

Investment objective To increase the value of your investment over time. Benchmark 40% JP Morgan Economic and Monetary Union (EMU) Index in euro + 40% MSCI World in euro (net total return) + 20% Bloomberg Euro Treasury Bills Index. For designing portfolio, measuring performance and calculating performance fee.

Investment policies The fund mainly invests, in balanced proportion, in equities and in government and corporate bonds. These investments may be from anywhere in the world, including emerging markets. Bond investments are denominated in any currency and some may be below investment grade. The fund may invest significantly in Italian government bonds with any credit rating. The fund mainly invests through funds but may also invest directly and through derivatives.

Specifically, the fund normally invests at least 51% of net assets in UCITS or other UCIs that have an ESG approach in their investment process. The duration of the portfolio may vary over time and may be negative in some circumstances.

The fund may invest in the following asset classes up to the percentages of total net assets indicated:

- below investment grade or unrated debt instruments other than Italian government bonds: 49%
 - equities and equity-related instruments: maximum 60%, minimum 20%
 - deposits in any currency: 20%
 - asset-backed and mortgage backed securities: 10%
 - contingent convertible bonds (coco bonds): 10%
- Non-euro investments may not be hedged to euro.

Derivatives and techniques The fund may use derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure.

Strategy In actively managing the fund, the investment manager uses macroeconomic analysis along with fundamental and environmental, social or corporate governance (ESG) criteria to dynamically adjust the portfolio's asset mix and to select investments (top-down and bottom-up approach). The fund's exposure to securities, and thus its performance, are likely to moderately differ from those of the benchmark.

Distribution Policy This Unit Class declares and pays dividends following the end of each calendar year corresponding to at least 50% of net investment income during the previous year. The Management Company reserves the right, taking into account the interests of the investors, not to distribute any dividend.

Other information The fund promotes (E) environmental and/or (S) social characteristics and invests in assets following good governance (G) practices in accordance with article 8 of the Sustainable Finance Disclosure Regulation ("SFDR"). For more information, see "SFDR Pre-contractual disclosures" attached to the Prospectus.

Intended retail investor

The fund is available to investors with basic knowledge, with or without advice.

The fund is intended to investors who understand the risks of the fund and plan to invest over a recommended holding period of 5 years.

The fund may appeal to investors who are looking for an investment combining income and growth of their investment while favouring sustainable investing, are interested in exposure to a diversified asset mix, either for a core investment or for diversification purposes, have a medium risk profile and can tolerate moderate losses.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Management Company to pay you.

This fund does not offer any form of capital protection against future negative market conditions and, as a consequence, you may lose part of or the entire amount originally invested.

If the fund is not able to pay you out what is due, you may lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/ a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between November 2024 and December 2025.

Moderate: this type of scenario occurred for an investment between December 2019 and December 2024.

Favourable: this type of scenario occurred for an investment between October 2016 and October 2021.

What happens if Eurizon Capital SGR S.p.A. - Luxembourg Branch is unable to pay out?

If the fund is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. The fund is treated as a separate entity having its own assets which are distinct in all aspects from the assets of the Management company and the assets of each of the other investors in the fund, as well as from the assets of any other products managed by the Management Company. Obligations entered into on behalf of the fund shall be met solely with the assets of the fund. On the fund's assets, no actions of creditors of the Management Company or creditors acting on its interest, nor actions of creditors of the depositary or sub-depositary or creditors acting in the depositary or sub-depositary's interest, should be allowed. Actions of creditors of an investor in the fund are limited to the positions held in the fund by the concerned investor. The Management Company cannot, in any circumstances, use the assets of the fund for its own interests or those of third parties.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	298 EUR	874 EUR
Annual cost impact*	3.0%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.60% before costs and 3.02% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%, we do not charge an entry fee.	0 EUR
Exit costs	2.00% of your investment before it is paid out to you. Exit costs decrease over time.	133 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	1.63% of the value of your investment per year. This is an estimate based on actual costs over the last year. It includes the amortisation (over 3 years) of a placement fee corresponding to 2.00% of the invested amount. The placement fee is set aside (levied on the fund's assets) at the time of purchase, and is then paid out over a 3-year period via daily deductions that use straight-line amortisation.	163 EUR
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.00% The performance fee calculation is based on a comparison of the net asset value per unit against the High Water Mark where the High Water Mark is defined as the highest net asset value per unit recorded at the end of the five previous financial years, increased by the year-to-date return of the fund's benchmark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You may request to sell fund units at any time without any prior notice. Requests to sell fund units that are received and accepted by the transfer agent by 4:00 PM CET on any day that is a business day in Luxembourg and that is also a trading day on the fund's main markets are ordinarily processed the following business day. Settlement occurs no later than 3 business days after a request has been accepted.

After three years your units are automatically converted into Platinum unit class.

If you sell your units before the end of the Recommended Holding Period, this could impact your investment's risk profile and/or performance.

If you sell your units before the end of the 3-year amortisation of the placement fee, you will be charged a redemption fee corresponding to the amount specified above.
