Key information document production date: 01/09/2025

KEY FEATURES OF THIS PRODUCT

TYPE OF INVESTMENT PRODUCT

UCITS in the form of mutual funds (FCP)

FUND TERM

This fund was established for a period of 99 years, which may be extended as provided for in the fund Rules.

OBJECTIVES

This Fund is actively managed on a discretionary basis in compliance with a qualitative extra-financial filter in accordance with the policy implemented by Crédit Mutuel Asset Management and in compliance with the requirements of the French SRI label and using an ESG integration and selectivity approach to management.

Its management objective is to achieve a return (net of fees applicable for the particular unit class) that outperforms its benchmark index, which is the compounded €STR over the recommended investment period.

In the event of particularly low, negative or volatile interest rates, the net asset value of the Fund may fall structurally, which could have a negative impact on the performance of your Fund and compromise the management objective of capital preservation. The benchmark index is the compounded €STR. The index is based on the closing price and expressed in euro. It factors in interest compounding for €STR.

It is classified as: Standard variable net asset value (VNAV) money market funds.

In order to achieve the management objective, the UCITS adopts an active management style to achieve a return close to that of the money market, with market risk comparable to that of its benchmark index, while maintaining regular increases in net asset value.

The UCITS management company establishes an initial investment universe comprising issuers belonging to the Bloomberg Barclays Euro Aggregate Corporate Index and all issuers domiciled in the OECD area with an issuance programme. Securities are selected from within this universe, but may also be selected from outside this universe up to a limit of 10%, provided that these securities have an ESG score above the exclusion threshold applicable to the universe and meet the sub-fund's investment criteria. Within this universe, eligible instruments are money market instruments that meet the criteria of Regulation (EU) 2017/1131 on money market funds (MMFs) and term deposits from credit institutions.

The investment process is based on an approach that integrates ESG criteria into the management process and is divided into three steps:

Step 1: Legal and sector exclusion policies and controversy management:

From the initial investment universe, the management team will apply a filter linked to Crédit Mutuel Asset Management's sector exclusion policies, which it implements to manage its funds. In addition to legal exclusions, sectoral exclusions are also applied.

The management of controversies relating to each security shall be subject to specific analysis, monitoring and rating. The management company will exclude all companies with major controversies.

Step 2: ESG filter:

The extra-financial analysis carried out in accordance with the ESG security selection process results in the exclusion of at least 25% of the lowest-rated issuers in the initial investment universe under consideration.

Crédit Mutuel Asset Management's proprietary ESG analysis is based on three complementary pillars: Environment (e.g. CO2 emissions, electricity consumption, waste recycling), Social (e.g. quality of social dialogue, employment of people with disabilities, employee training) and Governance (e.g. gender diversity on boards of directors, transparency of executive compensation, anti-corruption measures).

A qualitative analysis complements the extra-financial analysis derived from the model.

Step 3: Financial analysis and portfolio construction:

Financial analysis: This new universe is analysed from a financial point of view to ensure that only clearly identified quality securities are retained. This universe constitutes the list of securities eligible for investment.

Portfolio construction: This part of the process is based on active management of the average life of securities taking into account any expectations of changes in eurozone central bank interest rates, management of the money market yield curve and management of monthly fluctuations in the €STR as well as defining the classification. The split between variable and fixed rates will change in line with expected changes in interest rates. Credit risk is managed on a day-to-day basis to try to optimise the portfolio's return through a rigorous selection of issuers.

At the end of the selection process, the manager ensures that the instruments in the portfolio are of high credit quality through the application of a rigorous internal analysis and assessment process by the management company, or by reference, but not exclusively, to the short-term ratings of those ESMA-registered rating agencies that have rated the instrument and which the management company deems most relevant, avoiding any mechanical dependency on these ratings. If the instrument is not rated, the asset management company determines an equivalent quality using an internal process. A money market instrument is not of high credit quality if it does not have at least one of the two highest short-term ratings determined by the asset management company. The Fund limits its investments to financial instruments with a maximum residual maturity of 2 years or less, provided that the rate can be revised within a maximum period of 397 days. The weighted average maturity (WAM) is less than or equal to 6 months. The weighted average life (WAL) of financial instruments is less than or equal to 12 months.

As an exception, it may invest more than 5% of its net assets and up to 100% of its net assets in money market instruments that have been issued or guaranteed (individually or jointly) by certain sovereign, quasi-sovereign or supranational entities. Instruments issued in currencies other than the euro are systematically hedged against currency risk.

However, companies with the highest ESG ratings will not automatically be included in the portfolio; their inclusion in the final portfolio remains at the discretion of the fund manager.

The securities selected by the management team incorporate non-financial criteria and the UCITS selected by the management team that have been awarded the French SRI label represent 90% of the portfolio. The Fund may invest in securities that do not incorporate extra-financial criteria and in units or shares of UCIs that do not carry an SRI label, up to a limit of 10% of net assets.

The Fund may also trade in:

- forward contracts, futures or options and securities with embedded derivatives, used for hedging and/or to gain exposure to interest-rate, credit and currency risks. Direct or indirect exposure to equity and commodity risk, including through financial contracts, is prohibited.

Allocation of distributable amounts: Total accumulation

Subscription/redemption conditions: Orders are processed every day at 12 noon and executed at the net asset value calculated at the previous day's closing market prices. The net asset value is calculated daily at closing prices, except on French and US public holidays or on a day when the Paris Bourse or US stock exchanges are closed for trading. However, the net asset value may be recalculated until orders are executed, to take account of any exceptional market events occurring in the meantime.

TARGET RETAIL INVESTORS

AND TERM OF THE UCI

This Fund is intended for investors with a very short-term investment horizon that is consistent with the Fund's recommended investment period. It is intended for investors with at least a basic knowledge of financial products and markets, and who are willing to accept the risk of capital loss. The Fund is not available to residents of the United States of America / US Persons. For more information you may refer to the glossary on Crédit Mutuel Asset Management's website.

The objective of this fund is to preserve capital, while integrating extra-financial criteria into its management process. Prospective investors should contact their financial advisor for guidance as to whether the proposed investment solutions are compatible with their objectives, knowledge and experience of financial markets, assets and risk appetite. Their financial advisor may also inform them of potential risks.

PRACTICAL INFORMATION

Depositary: BANQUE FEDERATIVE DU CREDIT MUTUEL

The Fund's prospectus and most recent annual and interim reports are sent free of charge within eight business days upon written request to CREDIT MUTUEL ASSET MANAGEMENT, 128 Bd Raspail – 75006 PARIS, and are also available at www.creditmutuel-am.eu.

The net asset value may be obtained from the asset management company.

For further information, please refer to the "Other relevant information" section of this document.

WHAT ARE THE RISKS AND POTENTIAL REWARDS?

RISK INDICATOR

This risk indicator assumes that you will hold this UCITS for at least 7 days.

It enables you to assess this Fund's level of risk exposure and compare it to other funds. It reflects the probability that this Fund may suffer a loss due to adverse market movements or if we cannot make payments to you.

We have given this Fund a risk rating of 1 out of 7, which is the lowest class of risk exposure. This means that the level of this Fund's potential losses is considered to be very low and that if market conditions were to deteriorate it is very unlikely that the Fund's net asset value would be adversely affected. The consequential risks of techniques such as derivatives can lead to a fall in net asset value. For further information, you may refer to the fund's risk profile in the prospectus.

As this Fund does not secure your investment against market fluctuations, you may lose some or all of the capital you invest.

PERFORMANCE SCENARIOS

The figures shown account for all the costs of the product itself, but not necessarily all the fees owed to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

Your return from this product depends on the future performance of markets. Future market movements are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product calculated on a minimum of 10 years of data. Markets may behave quite differently in the future. The stressed scenario shows your hypothetical return under extreme market conditions.

Recommended holding period: 7 days Hypothetical investment:: €10,000		If you leave after 7 days
Scenarios		
Minimum	There is no guaranteed minimum return. You could lose some or all of your investment.	
Stressed	Your hypothetical return net of costs	€9,995
	Average annual return	-0.1%
Unfavourable	Your hypothetical return net of costs	€9,999
	Average annual return	0.0%
Moderate	Your hypothetical return net of costs	€9,999
	Average annual return	0.0%
Favourable	Your hypothetical return net of costs	€10,009
	Average annual return	0.1%

This type of unfavourable scenario occurred for an investment between: 12/04/2022 and 19/04/2022.

This type of moderate scenario occurred for an investment between: 13/08/2019 and 20/08/2019.

This type of favourable scenario occurred for an investment between: 19/12/2023 and 27/12/2023.

WHAT HAPPENS IF CREDIT MUTUEL ASSET MANAGEMENT DEFAULTS ON PAYMENTS?

The product is a selection of jointly-owned financial instruments and deposits from the portfolio management company. In the event of the latter's default, the product assets held by the depositary will not be affected. If the depositary defaults, the risk of financial loss to the product is mitigated by the legal segregation of the depositary's assets from those of the product.

HOW MUCH WILL THIS INVESTMENT COST ME?

Your financial advisor on this UCITS or its distributor may require that you pay additional costs. If this is the case, they will inform you of these costs and explain how they affect your investment.

COST OVER TIME

The tables show the amounts taken from your investment to cover the various types of costs. These amounts depend on the amount you invest, how long you hold your investment and its performance. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that you will get back the amount you invested (0% annual return).
- an investment of €10,000

Investment: €10,000	If you leave after 7 days
Total costs	€0
Cost impact *	0.0%

(*) This illustrates the impact of costs over an investment period of less than one year. This percentage is not directly comparable with cost impact figures provided for other packaged retail investment and insurance-based products (PRIIPs).

We may share costs with the person or entity who/which sells you this Fund to cover the cost of the services they provide you. The distributor will inform you of this amount.

COSTS BREAKDOWN

One-off entry and exit charges		If you leave after 7 days
Entry charges	A maximum of 0.00% of the amount you pay when you invest, not including distribution costs for your product. Whoever sells you the product will inform you of the actual costs.	€0
Exit charges	We charge no exit fee for this product.	€0
Recurring costs [deducted each year]		
Management fees and other administrative and operating expenses	0.06% of the value of your investment per annum. The percentage shown is based on the previous year's fees/expenses.	€0
Transaction costs	0.02% of the value of your investment per annum. This is an estimate of the costs we incur when we buy and sell the investments that underlie the product. The actual amount depends on the volume of securities we buy or sell.	€0
Ancillary costs charged under specified conditions		
Performance-related fees and profit-sharing fees	The calculation is applied on each net asset value calculation date as follows: 40% (incl. tax), of the return above the compounded €STR benchmark index + 0.03%, net of fixed management fees, even if this return is negative, 0.04% of the value of your investment per year. The actual amount will depend on how your investment performs. The above estimate of total costs includes the average over the past five years.	€0

HOW LONG DO I HAVE TO HOLD MY INVESTMENT AND CAN I WITHDRAW MY MONEY EARLY?

RECOMMENDED HOLDING PERIOD: more than 7 days

Although this Fund has no minimum holding period, there is a recommended investment horizon that is aligned with the fund's investment objectives. You may therefore redeem your shares before the end of the recommended holding period without having to pay a penalty fee. This may however adversely affect the fund's performance.

HOW CAN I FILE A COMPLAINT?

Complaints may be mailed to CREDIT MUTUEL ASSET MANAGEMENT, Support Functions Department, 128 Bd Raspail - 75006 PARIS, or by email at the following address: amweb@creditmutuel.fr. For further information, please consult the complaints handling section at the following address www.creditmutuel-am.eu/fr/actualites-reglementaires/traitements-des-reclamations.html.

OTHER RELEVANT INFORMATION

Information on the Fund's past performance and past-performance scenario calculations may be found in the Fund's factsheet at www.creditmutuel-am.eu.

The Fund has been awarded the French ISR label.

When the product is used as a vehicle for units of account of life insurance or capitalisation contracts under French law, additional information on the contract, such as contract costs, which are not included in the costs listed in this document, the contact point in the event of a claim and the procedure in the event of insurance company default, are set out in the key investor information document for this contract which your insurer or broker or other insurance intermediary is required to provide in accordance with their statutory obligations.

CREDIT MUTUEL ASSET MANAGEMENT may only be held liable for statements contained in this document that are misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
