Fund Description

The Lazard Global Equity Advantage Fund utilizes a core investment strategy that seeks to generate consistent outperformance through market cycles. It employs a proprietary, systematic investment process that favors companies that we believe have attractive fundamentals and high-quality financial characteristics. The team maintains a well-diversified portfolio and seeks to avoid tactical positions that may result in unintended exposures and performance surprises. A robust, portfolio management team-led research initiative underpins our efforts to generate alpha.

Glossary

Active Share measured as a percentage, active share is the degree of deviation in holdings between a portfolio and its benchmark. Active share of a portfolio is calculated as half the sum of the absolute active weights of all securities in a portfolio and its benchmark. For portfolios without shorts, the statistic ranges from 0% (index tracker) to 100% (no overlap with index). The higher the number, the more "active" the manager is.

Alpha represents the return of a portfolio that is attributable to the manager's investment decisions.

Beta measures a fund's sensitivity to movements in the overall market.

EPS represents the fiscal period earnings per share (EPS) for the period.

Information ratio represents the value added by the manager (excess return) divided by the tracking error.

The **Ongoing Charges** represent the ongoing costs to the fund from one year to the next which includes but is not limited to the fund's annual management fees, professional fees, audit fees, custody fees and custody transaction fees. It
