

**Objective:** The investment objectives of the Fund are to: (i) generate a total return (through a combination of income and capital growth) over a rolling five-year period; and (ii) have a reduced environmental footprint compared to the Benchmark.

**Investment Approach:** The investment manager seeks to achieve its objective by investing in investment grade corporate bonds issued by companies the investment manager perceives to lead or display momentum in sustainability. Through fundamental analysis, the manager aims to identify bonds with the most appealing return prospects and prices. The Fund will utilise a proprietary Sustainable Leaders ("SL") scoring system to determine an issuer's eligibility for the portfolio, prior to conducting detailed, issue-specific fundamental and sustainability analysis to help meet its sustainability objective. The Fund may utilise debt and debt-related securities, including Contingent Convertible Bonds ("CoCos"), as well as Credit Default Swaps ("CDS") to deliver its objectives.

#### Fund information

Fund type	UCITS
Inception date	20 March 2023
Fund size (m)	£275.4 / €313.6 A\$519.6 / US\$370.3 S\$468.3

## Environmental performance

(Base currency: US Dollar)

	Fund	Benchmark
 <b>Carbon Footprint</b> (Tonnes CO2 per million invested in base currency)	<b>82.69</b>	<b>107.26</b>

To measure the Fund's environmental performance the key performance indicator used is carbon footprint. This measures carbon emissions generated by companies within the Fund for every million units of currency invested. The calculation accounts for both direct and indirect greenhouse gas emissions, which are covered in industry-standard definitions for Scope 1, 2 and 3 emissions<sup>1</sup>. Where a benchmark is referenced on Page 1, the Fund's environmental performance is also compared to that of the benchmark. Therefore, a smaller carbon footprint figure than the benchmark's is evidence that the Fund's emissions, adjusted for the market value held in the Fund, are lower than those of the benchmark. However, please note this fund does not have a specific environmental performance target unless stated in the Fund Objective. The carbon footprint figures shown in the table are accurate as of the end of the previous month.

Sources: Trucost. <sup>1</sup>Scope 1 relates to emissions from sources owned or controlled by the company. Scope 2 addresses indirect emissions associated with the generation of imported or purchased electricity, heat and/or steam. Scope 3 captures other indirect upstream emissions that are a consequence of the company's activities but are generated by sources owned or controlled by another entity, such as employee business travel.

Please note a change in methodology in how we calculate the footprint numbers for our equity funds. Going forward, we will be using Enterprise Value including cash (EVIC) instead of Market cap, in line with the TCFD recommendations and current methodology used for credit portfolios, to calculate carbon, water and/or waste footprint. We are now also rebalancing the portfolios excluding any names without carbon and/or financial data to conduct the calculations; this will now allow the portfolio metrics to be comparable to benchmark metrics, where benchmark metrics are required.

## Stewardship

Engagement coverage and progress

Percentage of AUM engaged by theme

The stewardship data show engagement coverage, progress and voting activity for the past 12 months as at the end of the previous month.

**Engagement coverage:** shows the proportion of Fund AUM engaged by our stewardship team, EOS at Federated Hermes (EOS). A higher value confirms that more assets are currently being engaged on material ESG and strategic considerations to develop more sustainable business practices and effect positive change.

**Engagement progress:** expresses the success of engagements with Fund assets. The percentage value confirms the proportion of engagements that have progressed one milestone under EOS's proprietary tracking system.

**AUM engaged by theme:** conveys the ESG and strategic topics that assets have been engaged on over the past 12 months.

Source: EOS at Federated Hermes. Data is averaged over a 12-month rolling period.

#### Risk profile

- Past performance is not a reliable guide to future performance.
- **Bonds Risk:** The Fund invests in bonds and there is a risk that the bond may default and not meet its financial commitments. Also, the value of the bond may rise or fall as interest rates change.
- **Counterparty Risk:** The Fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the Fund.
- **Emerging Markets Risk:** The Fund invests in Emerging Market countries, these markets are less established, and often subject to greater share price fluctuations and higher risks than more developed market countries.
- **Financial Derivative Instruments (FDIs) Risk:** The Fund invests in Derivatives. These are a type of financial security, the value of which depends on the performance of an underlying security. Small changes in the price of the underlying security may cause larger changes in the value of the Derivative, increasing potential gain or loss. Derivatives may increase or reduce the overall volatility of the Fund.
- **Leverage Risk:** The use of leverage may amplify either gains or losses. Which could have an effect on the value of the Fund.
- **Liquidity Risk:** In difficult market conditions, certain Fund investments may be harder to sell at the current market price.
- **Operational Risk:** Operational issues, for example arising from errors in transactions, valuation, accounting, and financial reporting, may affect the value of the Fund.
- **Sustainability Risk:** The Fund considers sustainability as part of the investment selection process so may perform differently to funds that do not consider sustainability criteria.
- For more information on risks please refer to the Key Investor Information Document / Key Information Document and Prospectus.

#### Glossary of terms

<b>Accm or Accumulating</b>	Instead of income derived from the fund's shares being paid to investors as dividends, this income is re-invested within the fund to buy further shares.
<b>Average Weighted Coupon</b>	Figure derived by weighting the coupon of each bond by its relative size in the portfolio.
<b>Benchmark</b>	A standard against which the performance of a security, mutual fund or investment manager can be measured. Generally, broad market stock and bond indexes are used for this purpose.
<b>Bloomberg Ticker</b>	A string of characters or numbers used to identify a listed company or entity on financial services news services.
<b>Bond</b>	An asset that allows an investor to lend money to a borrower (such as a corporation or government) for a defined period in exchange for interest being paid to the lender throughout the term of the loan and the loan being paid at maturity.
<b>COB</b>	Close of business.
<b>Contingent Convertibles (CoCos)</b>	A type of debt security that may be converted into equity or could be forced to suffer a write down of principal upon the occurrence of a pre-determined event ("the trigger event"). The trigger event is ordinarily linked to the financial position of the issuer and therefore the conversion is likely to occur as a result of a deterioration of the relative capital strength of the underlying.
<b>Coupon</b>	The rate of interest paid on a bond, which is expressed as a percentage of the nominal or face value. Coupons are typically paid semi-annually. The coupon on a fund level is the weighted average of all of the coupons on the underlying investments.
<b>Credit</b>	An asset class that focuses on investment in instruments that allow entities (such as corporations and governments) to borrow money in order to fund activities. Interest is paid by the borrower to the lender in instalments (known as 'coupon payments') throughout the term of the loan and the loan is expected to be repaid at a defined date in the future. Borrowers receive a 'credit rating' that indicates how risky the loan is likely to be and how likely it is that the borrower will fail to make repayments. More risky borrowers will be expected to pay a higher interest rate to compensate the borrower for the risk.
<b>Credit Default Swap (CDS)</b>	CDS is an insurance contracted by two parties on one underlying issuer facing a risk of default. CDS long risk represents an investment purchased to make a profit from the price of the underlying investment rising. CDS short risk represents an investment purchased to make a profit from the price of the underlying investment falling. CDS Index is an index containing multiple CDS's.
<b>Credit Exposure</b>	The total amount of credit extended to a borrower by a lender and the maximum value that will be lost if the counterparty defaults on the loan.
<b>Credit Spread</b>	The yield spread, or difference in yield between different securities, due to different credit quality.
<b>Duration</b>	A measure that helps approximate the degree of price sensitivity of a bond to changes in the interest rates. Although stated in years, duration is often explained as an estimate of the percentage price change of a bond in response to a one percent change in interest rates. Bonds with higher duration have a greater sensitivity to changes in interest rates and will generally experience a more significant drop in value as interest rates rise so carry a higher degree of risk.
<b>Duration Times Spread (DTS)</b>	DTS equals credit spread multiplied by duration. This is a volatility measure of spread duration.
<b>Engagement</b>	A purposeful, long-term and proactive dialogue between a company or asset and its investors, aiming to influence or change the way it is run in order to enhance its value and generate positive environmental and social outcomes. As a pioneer of effective stewardship, the international business of Federated Hermes believes that this practice lies at the heart of long-term investment. Our Responsibility Office oversees the integration of stewardship into all our investment activities.
<b>EOS at Federated Hermes (EOS)</b>	A pioneer of effective stewardship and provider. Founded in 2004 on a legacy dating back to 1983, EOS provides investors worldwide with the following services: engagement, voting, public policy advocacy, responsible-investment policy advice and portfolio screening.
<b>Fundamental Analysis</b>	Fundamental analysis in Credit seeks to provide a view of a company's ability to repay its financial obligations.
<b>Future</b>	A financial contract obligating the buyer to purchase an asset (or the seller to sell an asset) at a predetermined future date and price.
<b>High-Yield Bond</b>	A Bond that has a lower credit rating than other Bonds, increasing the potential risk of loan default. In return for the increased risk, the Bond will pay a higher interest rate ('yield') than investment grade Bonds.
<b>Historic Yield</b>	This shows the income paid out to investors over the last 12 months, divided by the NAV of the fund.
<b>IA Sector</b>	The IA sectors divide funds available in the UK, including some offshore (EU) funds, into smaller groups, to allow you to make like-for-like comparisons between funds in a sector.
<b>Investment Grade</b>	Bonds or other securities that are rated at or above Baa3 by Moody's or BBB- by S&P or an equivalent rating by another rating agency.
<b>ISIN</b>	International Securities Identification Numbers (ISIN) uniquely identify a financial security for trading and settlement purposes.
<b>Loan</b>	Money lent to an entity under a contractual arrangement agreed between the borrowers and lender, in exchange for interest throughout the life of the loan and expected repayment of the loan at maturity.

<b>Maturity</b>	The period of time for which a financial instrument remains outstanding. Maturity refers to a finite time period at the end of which the financial instrument will cease to exist and the principal is repaid with interest. The term is most commonly used in the context of fixed income investments, such as bonds.
<b>Morningstar Rating</b>	A ranking ranging from one to five stars, with five being the best, given to publicly traded mutual funds by the investment research firm Morningstar +/- 1% change in interest rates is 5%.
<b>Ongoing Charge</b>	Estimated charges taken from the Fund over one year.
<b>Overweight / Underweight</b>	A situation where a portfolio holds an excess or lesser amount of a particular security when compared to the security's weight in the underlying benchmark portfolio.
<b>Portfolio Exposures</b>	A measurement of how much a fund is invested in a particular financial security and/or market sector and/or industry. The measurement is usually represented as a percentage of the overall fund or a percentage relative to its benchmark.
<b>Principal</b>	The original sum invested.
<b>Relative Curve Positioning by Duration Contribution</b>	The total duration of a bond portfolio is composed of various duration 'contributions' or exposure along the yield curve. The portfolio has exposure to various sectors of the yield curve (specifically 0-5yrs, 5-15yrs, 15-30yrs, +30yrs) and this exposure is then compared to the index to give the relative exposure, with a positive being an overweight exposure, and a negative an underweight compared to the benchmark.
<b>Spread Duration</b>	A measure of the percentage change in a bond price for a 1% change in credit spread.
<b>Valuation Point</b>	The time at which the assets of a fund are priced.
<b>Yield</b>	A figure that shows the income return you receive from a bond. The yield displayed is the 'Effective Yield' of the fund; which takes into account reinvestment of all of the underlying bond coupon payments.
<b>Yield Curve</b>	A line that plots the interest rates at a set point in time having equal credit quality but differing maturity dates.
<b>Yield to Worst</b>	It is the lowest potential yield that can be received on a bond without the issuer actually defaulting. This figure is derived by weighting the Yield to Worst of each bond by its relative size in the portfolio.

Eligible European investors are advised that compensation may be available for certain eligible investments under the Ireland Investor Compensation Scheme.

**In Australia:** This Factsheet relates to interests in the Fund ("Fund") named on the Factsheet. Federated Hermes Investment Funds Plc is the issuer of interests in the Fund ("Issuer"). Both Hermes Investment Management Ltd and Federated Investors Australia Services Ltd ACN 161 230 637 ("FIAS") are the distributors of the Fund ("Distributors"). None of the Fund or the Manager hold an Australian financial services licence under the Corporations Act 2001 (Cth) ("Corporations Act"). HIML operates under the relevant class order relief from the Australian Securities and Investments Commission ("ASIC") while FIAS holds an AFS licence (Licence Number - 433831). The offer of interests in the Fund ("Interests") is only made in circumstances under which no disclosure is required under Chapter 6D and Part 7.9 of the Corporations Act. Nothing in this Factsheet is, or purports to be, an offer to a person to whom disclosure would be required under Chapter 6D or Part 7.9 of the Corporations Act. This Factsheet is not a disclosure document under Chapter 6D of the Corporations Act or a product disclosure statement for the purposes of Part 7.9 of the Corporations Act. This Factsheet has not been and will not be lodged with ASIC and does not contain all the information that a disclosure document or a product disclosure statement is required to contain. The distribution of this Factsheet in Australia has not been authorised by ASIC or any other regulatory authority in Australia. In addition, the Fund is not a registered managed investment scheme, as defined in the Corporations Act. This Factsheet is provided for general information purposes only and is not intended to constitute, and does not constitute, the provision of any financial product advice or recommendation and must not be relied upon as such. This Factsheet is not intended to influence a person in making a decision in relation to a particular financial product or class of financial products, or an interest in a particular financial product or class of financial products. This Factsheet has been prepared without taking account of your objectives, financial situation or needs and you should obtain independent professional financial advice that considers your circumstances before making any financial or investment decisions.

**In Hong Kong:** The contents of this document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice. The fund is not authorised under Section 104 of the Securities and Futures Ordinance of Hong Kong by the Securities and Futures Commission of Hong Kong. Accordingly the distribution of this document, and the placement of interests in the fund in Hong Kong, is restricted. This document may only be distributed, circulated or issued to persons who are professional investors under the Securities and Futures Ordinance and any rules made under that Ordinance or as otherwise permitted by the Securities and Futures Ordinance.

**In Singapore:** This document and the information contained herein shall not constitute an offer to sell or the solicitation of any offer to buy which may only be made at the time a qualified offeree receives a Hermes Investment Funds Public Limited Company prospectus, as supplemented with the global supplement, the relevant fund supplement, and the relevant Singapore supplement (the "prospectus"), describing the offering and the related subscription agreement. In the case of any inconsistency between the descriptions or terms in this document and the prospectus, the prospectus shall control. Securities shall not be offered or sold in any jurisdiction in which such offer, solicitation or sale would be unlawful until the requirements of the laws of such jurisdiction have been satisfied. For the avoidance of doubt, this document has not been prepared for delivery to and review by persons to whom any offer of units in a scheme is to be made so as to assist them in making an investment decision. This document and the information contained herein shall not constitute part of any information memorandum. Without prejudice to anything contained herein, neither this document nor any copy of it may be taken or transmitted into any country where the distribution or dissemination is prohibited. This document is being furnished on a confidential basis and solely for information and may not be reproduced, disclosed, or distributed to any other person. This document has not been reviewed by the Monetary Authority of Singapore.

**In Spain:** This communication has been prepared solely for information purposes and does not constitute a prospectus. While attention has been paid to the contents of this communication, no guarantee, warranty or representation, express or implied, is given to the accuracy, correctness or completeness thereof. This communication and information contained herein must not be copied, reproduced, distributed or passed to any person other than the recipient without Hermes Fund Managers Ireland Limited's prior written consent. Neither Hermes Fund Managers Ireland Limited, its branches, subsidiaries or affiliates, nor any other company or unit belonging to the Hermes Group, nor any of its directors or employees can be held directly or indirectly liable or responsible with respect to this communication. Federated Hermes Investment Funds PLC (the Company), is duly registered with the Spanish Securities Market Commission ("CNMV") under number 1394 ([www.cnmv.es](http://www.cnmv.es)), where an updated list of the authorised distributors of the Company in Spain (the Spanish Distributors) can be found. This document only contains brief information on the Sub-Fund and does not disclose all of the risks and other significant aspects relevant to a potential investment in the Sub-Fund. In addition, a copy of the report on the planned types of marketing in Spain must be provided using the form published on the CNMV website. All mandatory official documentation shall be available through the Spanish Distributors, in hard copy or by electronic means, and also available upon request by dialling +44(0)20 7702 0888, writing to [marketing@federatedhermes.com](mailto:marketing@federatedhermes.com) or consulting <https://www.hermes-investment.com/es/>, where you may also obtain updated information on the net asset value of the relevant shares available in Spain.
