

Investment Objective

The investment objective of the Fund is to track the risk and return characteristics of Bloomberg Barclays Euro Sovereign High Quality Index (the "Index"). The Fund invests in bond issues (with a minimum time to maturity of at least one year at the date of its selection for the Index) from those governments making up the European Monetary Union. To remain in the Index the debt of a particular country must retain an index rating of AA3 or better by Fitch, Moody's and Standard & Poors credit rating agencies. Further details of the Index constituents, weightings and methodology can be found at: https://indices.barcap.com/Benchmark_Indices/Index_Constituents_for_UCITS (click on Euro Sovereign High Quality Index).

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in (primarily Government issued) fixed interest securities.

RISK WARNINGS

- Credit Risk – A borrower or a counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.
- Liquidity Risk – Lack of a ready market or resale restrictions may limit the Fund’s ability to sell a security. Where the Fund invests in illiquid securities or does not trade in large volumes, the bid offer spreads may widen. Illiquid securities may trade at a discount and may affect the ability to meet redemptions on a timely basis.
- Counterparty Risk – In case of bankruptcy of the broker, there is no guarantee collateral held by the broker will be returned to the Fund. In the event of bankruptcy of the counterparty, the premium and any unrealised gains may be lost.
- Investment Risk – The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.
- Issuer Risk – The issuer of a bond held within the Fund may not be able to meet its obligations to the Fund.
- Currency Risk – Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.
- Valuation Risk – A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.
- Political Risks – The performance of the Fund may be affected by changes in economic and market conditions due to political developments and changes in government policies.
