

Sanlam Investments UK

Sanlam Investments UK is the global asset management arm of Sanlam Limited – a large South African financial services group, with over 100 years of heritage, listed on the Johannesburg Stock Exchange with a market cap of £5bn, £58bn under management and a AA(+) credit rating from FitchRatings. We are a boutique asset manager with a range of 16 specialist funds with just over £5bn in AUM. We are an investment led firm that places great emphasis on its clients and their investment outcomes. We specialise in running concentrated, high-alpha portfolios. All figures to Dec 2022.

Fund Overview

The fund invests in a diversified portfolio of instruments across a variety of different asset classes. The instruments are selected on the basis of proprietary multi-asset trading strategies which may result in the fund investing in the underlying instruments on a long/short basis. The fund will invest in equities, fixed income securities, CIS and ETFs. The fund will also invest in FDI in the form of listed futures and options in order to gain indirect exposure to these instruments and asset classes. The team employs stringent risk analysis and stop loss positions to provide downside protection

Top Ten Holdings

Imperial Brands Finance Plc 8 1/8 03/15/24	4.3%
Rolls-Royce Plc 3 3/8 06/18/26	3.7%

Sector Allocation

Performance Since Inception

Past performance is not a guide to future performance.

The above performance is based on the largest share class in the Fund by AUM and is not available to retail clients. The fund offers other share classes, some of them may be more expensive (which would affect performance) or have a longer track record. Source: Morningstar

CPI data operates on a 1 month lag basis, therefore data for the current month was not available at the time this document was produced.

Sanlam ESG Policy

Sanlam Investments UK recognises and embraces our duty to act as responsible long-term stewards of our client's assets. We believe that environmental, social and governance (ESG) risk and opportunity factors can have a material impact on investment returns and client outcomes. As such, we believe our decisions must support, and not undermine, the long-term sustainability of capital markets, economies, and society. We believe that we are responsible for crafting financial futures for our clients and, as such, need to be responsible stewards of our clients' assets. Our primary aim is to provide our clients with investment solutions and strategies that meet their unique needs and deliver sustainable, risk-adjusted, long-term performance.

Risk Factors & Glossary

The Fund has holdings which are denominated in currencies other than sterling and may be affected by movements in exchange rates. The Fund can invest in derivatives. Derivatives are used to protect against fluctuations in currencies, credit risk and interest rates or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The Fund's expenses are charged to capital. This has the effect of increasing dividends while constraining capital appreciation. Part of the fund is invested in bonds. Investment in bonds and other debt instruments is subject to interest rate risk and risk of default by the issuer. The value of this portfolio is subject to fluctuation and past performance is not necessarily a guide to future performance. The performance is calculated for the portfolio and the actual individual investor performance will differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All terms exclude costs. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. Do remember that the value of participatory interests or the investment and income generated from them may go down as well as up and is not guaranteed, therefore, you may not get back the amount originally invested and potentially risk total loss of capital. Therefore, the Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Yield is calculated on historic dividend income from the preceding 12 months. Since the yield is based on past information it is provided as a guide and should not be taken as a guaranteed yield. If fees are charged to the capital account then this could reduce the amount invested. Income may fluctuate in accordance with market conditions and taxation arrangement's. The Manager has the right to close any Portfolios to new investors to manage them more efficiently in accordance with their mandates.

AMC – Annual Management Charge

A charge covering the costs associated with managing the fund. Although it is expressed in an annual percentage figure, the charge is usually taken in 12 monthly amounts.

OCF - Ongoing Charges Figure

This is a figure representing all annual charges and other operating charges taken from the fund. This includes the AMC.

AUM – Assets Under Management

The total market value of the investments held in this fund.

Annualised performance

The rate of growth the fund makes each year over the specified period.

Discrete Performance

The performance of the fund between two fixed, specific time periods.

Base Currency

The currency in which the net asset value of each portfolio is calculated.

Market Cap allocation

The percentage of the fund's assets that are invested in companies having market capitalisation of a particular size (the total value of a company's shares).

Market Capitalisation Exposure

The percentage of the fund's assets that are invested in companies having market capitalisation of a particular size.

Share Class

Share class is a designation applied to a share in a fund. Different share classes within the same fund will confer different rights on their owners, and potentially restrictions on ownership.

Price / NAV per Share

The price (or NAV per share) is an expression for net asset value that represents a fund's value per share. It is calculated by dividing the total net asset value of the fund or company by the number of shares outstanding.

Risk reward indicator

Used to indicate the level of risk of a fund by providing a number from 1 to 7, with 1 representing low risk and 7 representing high risk.

Volatility

A figure for how much the fund's returns deviate from the average returns over a period.

Important Information

This document is marketing material. Issued and approved by Sanlam Investments UK Investments Ltd which is authorised and regulated by the Financial Conduct Authority (FRN 459237) having its registered office at 24 Monument Street, London, EC3R 8AJ.

The UCITS Management Company has the right to terminate the arrangements made for the marketing of funds in accordance with the UCITS Directive. The Fund is a sub-fund of the Sanlam Universal Funds plc, a company incorporated with limited liability as an open-ended umbrella investment company with variable capital and segregated liability between sub-funds under the laws of Ireland and authorised by the Central Bank. The Fund is managed by Sanlam Asset Management (Ireland) Limited, Beech House, Beech Hill Road, Dublin 4, Ireland, Tel + 353 1 205 3510, Fax + 353 1 205 3521 which is authorised by the Central Bank of Ireland, as a UCITS Management Company, an Alternative Investment Fund Manager, and is licensed as a Financial Service Provider in terms of Section 8 of the South African FAIS Act of 2002. Sanlam Asset Management is a registered business name of Sanlam Asset Management (Ireland) Limited. Sanlam Asset Management has appointed Sanlam Investments UK Ltd as Investment Manager to this fund. This document is provided to give an indication of the investment and does not constitute an offer/invitation to sell or buy any securities in any fund managed by us nor a solicitation to purchase securities in any company or investment product. It does not form part of any contract for the sale or purchase of any investment. The information contained in this document is for guidance only and does not constitute financial advice. The fund price is calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income and expense accruals. Trail commission

and incentives may be paid and are for the account of the manager. Performance figures quoted are from Sanlam Investments and are shown net of fees. Performance figures for periods longer than 12 months are annualized. NAV to NAV figures are used. Calculations are based on a lump sum investment.

Collective Investment Schemes are traded at ruling prices and can engage in borrowing and scrip lending. Collective Investment Schemes (CIS) are generally medium to long term investments. A schedule of fees and charges and maximum commissions is available on request free of charge from the Manager, the Investment Manager or at [sanlam.co.uk](https://www.sanlam.co.uk). A full summary of investor rights can also be found online at <https://www.sanlam.com/ireland/Documents/SAMI%20Shareholder%20Engagement%20Policy.pdf>. Documents are provided in English.

Please note that all Sanlam Investments Funds carry some degree of risks which may have an adverse effect on the future value of your investment. Any offering is made only pursuant to the relevant offering document, together with the current financial statements of the relevant fund, and the relevant subscription/application forms, all of which must be read in their entirety together with the Sanlam Universal Funds plc prospectus, the Fund supplement and the KIID. All these documents explain different types of specific risks associated with the investment portfolio of each of our products and are available free of charge from the Manager or at www.sanlam.ie. No offer to purchase securities will be made or accepted prior to receipt by the offeree of these documents, and the completion of all appropriate documentation. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision as not all investments are suitable for all investors. The nature and extent of consumer protections may differ from those for firms based in the UK. Details of the Temporary Permissions Regime, which allows EEA-based firms to operate in the UK for a limited period while seeking full authorisation, are available on the Financial Conduct Authority's website."
