### Fund Summary

The Fund seeks to protect capital and generate an attractive level of risk-adjusted total return. The Fund is well-diversified, with an average investment grade rating and invests in a blend of sectors and Asian countries. The Fund typically features contained volatility, and aims to offer attractive yield with the premise of capturing opportunities in Asian investment grade corporate bonds. The Fund also invests in high yield (sub-investment grade) corporate bonds, but maintains an investment grade average rating at all times.

### Administrative Notes

The Sustainable Finance Disclosure Regulation (SFDR) classification relates to Regulation (EU) 2019/2088 whereby an investment product classified as: Article 9 has sustainable investment as its objective; Article 8 is promoted on the basis of certain environmental or social characteristics; or Article 6 does not incorporate sustainability into the investment process.

### Notes

For the Muzinich Funds Prospectus and Key Investor Information Document (KIID) go to [www.muzinich.com](http://www.muzinich.com).

All data as of 28/02/2022. All calculations in Fund Characteristics are based on internal Muzinich & Co. calculations. SI = since inception. YTD = year to date.

The Average Credit Rating reflects the highest rating of Moody's, Fitch and S&P or, where such is unavailable, Muzinich assigned rating but may not reflect the ratings regime used for the account's official guideline compliance calculations. Duration Distribution, Credit Breakdown, 10 Largest Industries, Geographic Diversification, Currency Breakdown and Fund Information includes securities portfolio only, excluding cash. Cash position is shown on a trade date basis.

Note on currency hedging: Currency exposure can introduce significant risk to an international bond allocation; hedging that risk can reduce that volatility over time. Hedging currency, however, produces a return - positive or negative - that is distinct from currency return and the return of an investment's underlying bonds. This "hedged return" is part of the investor's total return, and it effectively replaces the currency return. The hedged yield may therefore differ materially from the local currency yield.

### Important Information

For professional clients and, in Switzerland and Singapore, for qualified investors only. Before subscribing investors should read the most recent Prospectus, financial reports and KIID which contain a comprehensive disclosure of applicable risks. Past performance is not a reliable indicator of future results. The value of investments and the income from them may fall as well as rise and is not guaranteed and investors may not get back the full amount invested. The views, opinions expressed and Fund characteristics should not be construed as an offer to buy or sell or invitation to engage in any investment activity and are subject to change. Investors in the UK should also access the Muzinich Supplemental Information Document (SID). Investors should confer with their independent financial, legal or tax advisors.
