

Investment Objective

The investment objective of the Fund is to closely match the risk and return characteristics of the MSCI Emerging Markets Climate Series A Index (the "Index") with net dividends reinvested. The Fund invests in equities (that is, shares and other similar kinds of assets) issued by or relating to companies included in the Index. The Index is calculated and screened by MSCI based on predetermined and objective environmental, social and governance (ESG) criteria chosen by the Investment Manager which (i) Excludes certain companies not considered to meet sustainability principles identified by applying criteria which includes breaches of the UN Global Compact ten principles due to being involved in "very severe" controversies in such areas as Environment, Human Rights and Community, as well as other ESG criteria selected by the investment manager including revenues derived from tobacco involvement, the civilian firearms sector, the conventional weapons sector, or manufacture of controversial weapons; (ii) Excludes certain companies to reduce the carbon footprint from that of the MSCI Emerging Markets Index (Parent Index); (iii) Increases exposure, when compared to the Parent Index, to companies deriving revenue from Green products or services including energy efficiency, alternative energy, green building, pollution prevention, sustainable water, or sustainable agriculture and considering the company's MSCI Low Carbon Transition Risk Management score which assesses how well a company manages risk and opportunities related to the Low Carbon Transition. This includes assessment of carbon emission reduction targets and progress, product related carbon emissions and climate related disclosure, strategy and R&D.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment.

RISK WARNINGS

Liquidity Risk – Some recognised exchanges are less liquid or more volatile which may affect the price received and time taken when selling investments.

Counterparty Risk – In case of bankruptcy of the broker, there is no guarantee collateral held by the broker will be returned to the Fund. In the event of bankruptcy of the counterparty, the premium and any unrealised gains may be lost.

Investment Risk – The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.

Derivative Risk – Derivatives may result in gains or losses that are greater than the original amount invested.

Currency Risk – Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Valuation Risk – A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

Emerging Markets Risk – Emerging markets are generally more sensitive to economic and political conditions than developed markets and so may be more volatile.

Disclosure and regulatory standards may be less stringent, the legal infrastructure may not provide the same degree of shareholder protection and the Fund may encounter restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments.
