Risk Considerations

Past performance is not indicative of future results. For details of the investment risks, see the current prospectus.

Please note that any dividends/interest which the Fund may receive may be subject to withholding tax. With the exception of the US Real Estate Securities Fund the benchmark does not take into account the effects of tax and the deduction is therefore not reflected in the benchmark return illustrated herein.

The investment objective and performance benchmark is a target only and not a guarantee of the Fund performance. The index is unmanaged and cannot be invested in directly. Index returns assume reinvestment of dividends and capital gains and unlike fund returns do not reflect fees or expenses. Adverse movements in currency exchange rates can result in a decrease in return and a loss of capital. Investments of each portfolio may be fully hedged into its base currency potentially reducing currency risks but may expose the portfolio to other risks such as a default of a counterparty.

High Yield Bonds carry a higher level of default risk and can be less liquid than government bonds and investment grade corporate bonds.

Monthly and weekly Distributing Classes will distribute out of income and may also pay out of capital which will be eroded; investors in these classes should be aware that the payment out of capital may have different tax implications from distributions of income and should seek tax advice. In respect of the C, C1, C2, E and B share classes a contingent deferred sales charge may be payable to the Investment Manager in line with the provisions of the Fund's prospectus.
