RISKS

Investing in securities involves the risk of loss and there is no guarantee that all or any capital invested will be repaid. Past performance is never a guarantee of future returns. Investing in shares of the Fund does not grant an investor any ownership interests in the assets held by the Fund. Before investing in the Fund, the Fund's investment objectives, risk, charges and expenses should be carefully considered, including:

Currency Risk: The base currency of the Fund is USD. The non-USD share classes may be affected unfavourably by fluctuations in currency rates.

Liquidity Risk: Some of the Fund's investments may be difficult to buy or sell. This might affect the price at which the investments can be sold, which would affect the Fund's value.

Counterparty Risk: There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

Market Capitalisation Risk: The Fund will generally invest in small market capitalisation companies for which effective sales of securities may be more difficult and there may be greater price volatility.

ESG Risk: The Fund may be subject to regulatory uncertainty and additional costs in implementing ESG regulations and is reliant on ESG data which may not always be accurate or complete. The Fund might underperform relative to comparable funds that do not incorporate ESG factors or pursue a sustainable investment objective.

As further described in the Fund's UCITS KIID or PRIIPs KID (as appropriate), this Fund has the following risk classification scores (scores may be different due to slightly different risk calculation methodologies for UCITS KIIDs and PRIIPs KIDs) due to its exposure to equity markets, which means the Fund may experience significant volatility:

UCITS KIID Risk Classification: 6

PRIIPs KID Risk Classification: 5
