Performance data shown represents past performance and does not predict or guarantee future results. Investment returns and principal value will fluctuate so that shares redeemed may be worth more or less than their original cost. Current performance may be higher or lower than the performance shown. Total returns for a period of less than one year are cumulative. Returns without sales charges would be lower if the sales charges were included. Returns assume reinvestment of dividends and capital gains. For performance current to the most recent month-end visit [nuveen.com/global](http://nuveen.com/global). Performance shown for benchmark since inception is as of the Fund's oldest share class. The base currency of the Fund is USD. Returns may increase or decrease as a result of currency and exchange rate fluctuations between the base currency of the Fund and the currency in which an investor subscribes.

The maximum sales charge for Class A & C shares is 5.00%. All other share classes have no sales charge.

Effective 24 Oct, 2022, the Global Clean Infrastructure Impact Blended Benchmark is comprised of a 50% weighting in the S&P Global Infrastructure Index (NR) and 50% weighting in the S&P Global 1200 Utilities (Sector) Capped Index (NR). Performance prior to 24 Oct 2022 reflects a 100% weighting in S&P Global Infrastructure Index (NR).

## Important information on risk

Investing involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Concentration in infrastructure-related securities involves sector risk and concentration risk, particularly greater exposure to adverse economic, regulatory, political, legal, liquidity, and tax risks associated with MLPs and REITs. Foreign investments involve additional risks including currency fluctuations and economic and political instability. These risks are magnified in emerging markets. Common stocks are subject to market risk or the risk of decline. Small- and mid-cap stocks are subject to greater price volatility. The use of derivatives involves substantial financial risks and transaction costs. The Fund's potential investment in other investment companies means shareholders bear their proportionate share of fund expenses and indirectly, the expenses of other investment companies. Preferred securities may involve greater credit risk than other debt instruments. A complete description of the risks of investing in the Fund can be found in the Key Investment Information Document(s) (KIID(s)) and the Prospectus.

Responsible investing incorporates Environmental Social Governance (ESG) factors that may affect exposure to issuers, sectors, industries, limiting the type and number of investment opportunities available, which could result in excluding investments that perform well.

This document does not constitute an offer or solicitation to invest in the Fund and it is intended that this document be circulated only to persons to whom it may lawfully be distributed in consultation with their professional legal, tax, and financial professionals as to the best interest of any investment in light of their particular circumstances and applicable citizenship, residence or domicile. Persons who do not fall within such description may not act upon the information contained herein. Any entity that forwards this material to other parties takes responsibility for ensuring compliance with local laws in connection with its distribution, and in particular any applicable financial promotion rules.
