

Heptagon Future Trends Equity Fund

C share class

Objective

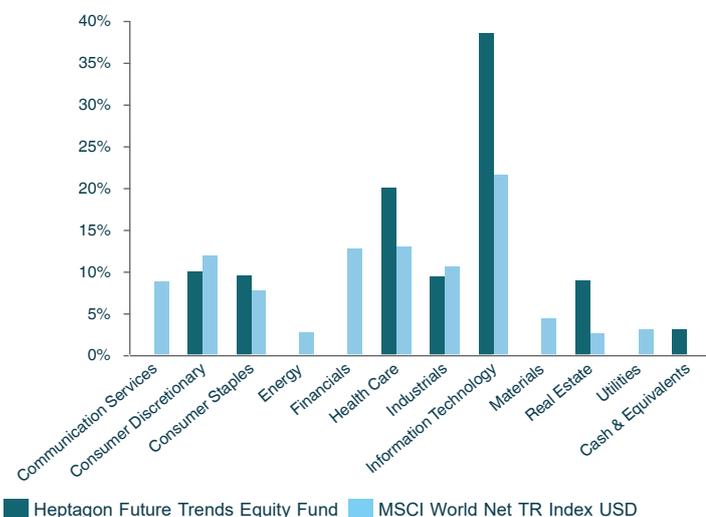

The Fund aims to deliver consistent and sustainable long-term returns by investing in a concentrated portfolio of global equities.

Investment Strategy

The Fund seeks to invest in a diverse range of businesses offering exposure to the key trends which we believe will help shape the future. These trends naturally align with the Sustainable Development Goals of the United Nations and are trends which we believe will grow in importance regardless of the economy and regulation.

The Fund is highly concentrated with low levels of turnover, and is sector, size, and geography agnostic. Portfolio construction is conducted bottom-up, with an emphasis on quantitative and qualitative factors as well as ESG considerations. The Fund does not invest in areas such as gambling, weapons, or tobacco and engages in active dialogue with companies to foster good ESG practices and improve the sustainability profile of companies in the long-term. Alex has worked in finance since 1997 and prior to joining Heptagon in 2011 was a top-ranked analyst at firms including Credit Suisse and JP Morgan.

Portfolio Sector Weights (30/11/2020)

Risk Warnings

The Fund is subject to special risk considerations including geographic concentration risk, portfolio concentration risk and operational risk. The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. Any investor should consider the investment objectives, risks and charges and expenses of the fund carefully before investing. Where an investment is denominated in a currency other than the investor's currency, changes in rates of exchange may have an adverse effect on the value, price of, or income derived from the investment.
