This fee waiver and expense reimbursement arrangement is voluntary which the Fund's investment advisor may terminate in its sole discretion at any time. A fund's investment objectives, risks, changes and expenses must be considered carefully before investing. The prospectus contains this and other important information about the investment company, and it may be obtained by calling +1 (212) 549-8380 or visiting www.brookfield.com. Please

read the prospectus carefully before investing. Investing in the Fund involves risk. Principal loss is possible. The Fund will be closely linked to the real estate market. Property values may fall due to increasing vacancies or declining rents resulting from unanticipated economic, legal, cultural or technological developments. REITs are dependent upon management skills and generally may not be diversified. REITs are subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. The Fund invests in small and mid-cap companies, which involve additional risks such as limited liquidity and greater volatility. The Fund invests in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. Investing in emerging markets may entail special risks relating to potential economic, political or social instability and the risks of nationalization, confiscation or the imposition of restrictions on foreign investment. Investment by the Fund in lower-rated and non-rated securities presents a greater risk of loss to principal and interest than higher-rated securities. Some securities held may be difficult to sell, particularly during times of market turmoil. If the Fund is forced to sell an illiquid asset to meet redemption, the Fund may be forced to sell at a loss. Using derivatives exposes the Fund to additional risks, may increase the volatility of the Fund's net asset value and may not provide the result intended. Since the Fund will invest more than 25% of its total assets in securities in the Real Estate industry, the Fund may be subject to greater volatility than a fund that is more broadly diversified. The quoted indexes within this fact sheet do not reflect deductions for fees, expenses or taxes. These indexes are unmanaged and cannot be purchased directly by investors. There may be material factors relevant to any such comparison such as differences in the volatility, and regulatory and legal restrictions between the indices shown and the Fund. Past performance is no guarantee of future results. An investment in the Fund involves risk, including loss of principal. Investment return and the value of shares will fluctuate. Returns are calculated by determining the percentage change in net asset value (NAV). The returns do not reflect broker sales charges or commissions. NAV is total assets less total liabilities divided by the number of shares outstanding. This material is presented only to provide information and is not intended for trading purposes. Current performance may be lower or higher than the performance quoted. For information about other share classes available, please consult the prospectus. Performance of Fund classes will differ.
