** 3-year annualized measures. No data available if the Fund is under 3 years. Risk measures are relative to the benchmark index indicated, if any, under the "Key Facts" section.*

Risks: Investments in funds are subject to risk. **Past performance is not a reliable indicator of future returns. Future returns are not guaranteed and a loss of principal may occur.** The value of an investment may decline as well as increase and shareholders risk to lose part or all of their investment. In addition, any performance data included in this document does not take into account fees and expenses charged on issuance and redemption of securities nor any taxes that may be levied. Changes in exchange rates may cause increases or decreases in your return. **The risk category was calculated using historical performance data (or indicative fund performance during periods of suspension), in accordance with PRIIPS Regulation (EU) No 1286/2014. It may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed. Please see the Key Information Document for more information.**

ESG GLOSSARY

ESG Ratings : Ratings from AAA-CCC are MSCI ESG Ratings. The MSCI ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC). Holdings with no MSCI ESG ratings are labelled “N/A” and are rated according to a proprietary methodology (for more detail please see the ESG Handbook).
Weighted Average Carbon Intensity : This figure represents the estimated greenhouse gas emissions per USD 1m in sales across the fund’s holdings.
Coverage : Percentage of a fund’s holdings that have MSCI carbon intensity data.
Green Revenues (QUAERO CAPITAL definition) : Portion of the revenues of a company generated by clean energy value chain activities such as (i) clean energy technology development and production including solar, wind, bioenergy, hydraulic, geothermal energy; (ii) renewable energy transmission and distribution; (iii) smart grid management; (iv) energy storage technologies including hydrogen and batteries; (v) carbon capture and renewable energy services; (vi) raw materials used in the clean energy value chain; (vii) and energy efficiency including energy efficient products, systems and processes.

IMPORTANT INFORMATION

General: This is a marketing document and is intended for informational and/or marketing purposes only. It is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. This document is neither an offering memorandum, nor should it be considered as a solicitation to purchase or to invest in Quaero Capital Funds (Lux) – Accessible Clean Energy (the "Fund"). Any offer to purchase shares in the Fund based on this document will not be capable of acceptance. The Prospectus, KID, Articles, annual and semi-annual reports (the "Legal Documents") may be obtained free of charge at the address mentioned below. **Please read the Legal Documents before investing and take note of the risk factors listed in the Fund's prospectus that are not intended to be reproduced in full in this document**.

Performance: Nothing contained herein shall constitute any representation or warranty as to future performance of any financial instrument, currency rate or other market or economic measure. No assurance can be made that profits will be achieved or that substantial losses will not be incurred. **Past performance is not a guide to or indicative of future results. Future returns are not guaranteed and a loss of principal may occur. Future performance is subject to taxation which depends on the personal situation of each investor and which may change in the future.**

ESG: ESG investing strategies aim to consider and in some instances integrate the analysis of environmental, social and governance (ESG) factors into the investment process and portfolio. Strategies across geographies and styles approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio consisting primarily of ESG or sustainable investments may be lower or higher than a portfolio where such factors are not considered by the portfolio manager. Because sustainability criteria can exclude some investments, investors may not be able to take advantage of the same opportunities or market trends as investors that do not use such criteria. Companies may not necessarily meet high performance standards on all aspects of ESG or sustainable investing issues; there is also no guarantee that any company will meet expectations in connection with corporate responsibility, sustainability, and/or impact performance. **The decision to invest in the promoted fund should take into account all the characteristics or objectives of the promoted fund as described in its prospectus.**

Risk: Factors affecting fund performance may include changes in market conditions (including currency risk) and interest rates, as well as other economic, political, or financial developments. The Fund's investment policy allows for it to enter into derivatives contracts. Leverage may be generated through the use of such financial instruments and investors must be aware that the use of derivatives may expose the Fund to greater risks, including, but not limited to, unanticipated market developments and risks of illiquidity, and is not suitable for all investors.

Index: The Fund is actively managed and uses the MSCI World Net Total Return USD for performance comparison. The benchmark has been chosen as it is generally considered to be representative of the investment universe in which the Fund invests. The performance of the Fund is likely to differ from the performance of the benchmark as the holdings, weightings and asset allocation will be different. Investors should carefully consider these differences when making comparisons. The benchmark is provided by an administrator on the European Securities and Markets Authority (ESMA) register of benchmarks which includes details of all authorised, registered, recognised and endorsed EU and third country benchmark administrators together with their national competent authorities.

Copyright: Any index referred to herein is the intellectual property (including registered trademarks) of the applicable licensor. Any product based on an index is in no way sponsored, endorsed, sold or promoted by the applicable licensor and it shall not have any liability with respect thereto. Any index data referenced herein remains the property of the Data Vendor.

Largest Holdings: The specific securities and portfolio companies identified and described herein do not represent all of the securities or portfolio companies purchased by the Fund. Portfolio data is as of the date indicated, subject to change without notice, and may not represent current or future portfolio composition. Investing in securities involves substantial risk. No assurance can be made that profits will be achieved and that substantial losses will not be incurred.

Country Specific Disclaimers: It is the responsibility of any person/s in possession of this document to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Neither Quaero Capital nor the Fund shall be liable for, and accept no liability for, the use or misuse of this document. If such a person considers an investment in Shares of the Fund, they should ensure that they have been properly advised about the suitability of an investment. All persons interested in investing in the Fund presented are recommended to seek advice from independent legal and tax financial advisors in order to ascertain whether the investment is appropriate to their own objectives. **Notice for Swiss investors**: the legal documents may be obtained free of charge in French from the Swiss representative of the Fund.
