Triodos Microfinance Fund provides private debt and equity to financial services providers that empower people and small businesses across the globe.

The fund has sustainable investment as its objective as set out in article 9 of the SFDR.

The sustainable investment objectives of Triodos Microfinance Fund are:

- to promote individual wellbeing through the advancement of financial inclusion;
- to support the transition to equitable and sustainable local economies; and
- to transform the financial system for a sustainable future.

The product may be exposed to risks. Please refer to the prospectus and the PRIIPs KID for more detail.

Highlights

- The monthly return of the fund was -2.7% (YTD: -5.8%).
- The fund's negative performance this month was largely driven by unrealised foreign exchange losses, following the further appreciation of the euro relative to a large number of foreign currencies, in combination with an equity markdown in Bolivia, and debt provisions in Mexico, where we observe increased macroeconomic risk due to its economic ties to the US. The debt portfolio continues to provide stable cash flows from interest.
- The fund disbursed EUR 1.5m to existing investee MicroInvest in Moldova, and received EUR 7.2m in repayments. No new investees onboarded this month.
- A weaker US dollar has eased the pressure on emerging market currencies and
 has increased appetite for investing in emerging markets. We created a heat
 map to evaluate the impact of potential tariffs on the fund portfolio, which
 showed limited impact. Microfinance institutions primarily serve local markets,
 with stable demand for basic products, independent of financial cycles. The
 fund's portfolio diversification mitigates global trade risks, with the portfolio
 spread across various markets. The fund continues to receive stable debt
 interest payments from resilient, well-capitalized institutions, and has a welldiversified equity portfolio of stable dividend-yielding institutions.

This is a marketing communication. Please refer to the prospectus and the KID of the Triodos Microfinance Fund before making any final investment decisions. An overview of the investor's rights can be found in the prospectus. The value of your investment can fluctuate because of the investment policy. Triodos Microfinance Fund is managed by Triodos Investment Management. Triodos Investment Management holds a license as alternative investment fund manager and UCITS and is under the supervision of the Dutch Authority Financial Markets and the De Nederlandsche Bank.

Triodos Microfinance Fund is a sub-fund of Triodos SICAV II, which is established in Luxembourg. Triodos SICAV II and its sub-funds are supervised by the Luxembourg regulator, the Commission de Surveillance du Secteur Financier (CSSF). Triodos Investment Management BV, acting as management company, is licensed by the Autoriteit Financiële Markten (AFM) in the Netherlands and Triodos Microfinance Fund is registered with the AFM. The value of Triodos Microfinance Fund is determined partly by the developments on the financial markets or other markets. Information on leverage is included in the prospectus and the annual report. Leverage is defined by the AIFMD as being any method by which the AIFM increases the exposure of a fund, whether through borrowing of cash or securities, or leverage embedded in derivative positions, or by any other means. Please refer to the prospectus for further information about the costs and risks that apply specifically to this fund. Avoid unnecessary risks. The prospectus may be obtained free of charge from your bank or via www.triodos-im.com. This information has been compiled with care by Triodos Investment Management.
