This document was produced on 16 February 2024.

What is this product?

Type:

This product is a UCITS Fund.

Term:

Open Ended Fund.

Objectives:

The Sub-Fund seeks to achieve above average total return consistent with prudent investment management over a full market cycle.

Benchmark: ICE BofA U.S. Dollar 3-Month Offered Rate Average Index.

The use of this benchmark is for comparison purposes only and it is not used for tracking or surperperforming purposes.

To achieve this objective, the Sub-Fund invests at least 65% of its net assets in residential mortgage-backed securities (as further detailed in the prospectus), commercial mortgage-backed securities (as further described in the prospectus) and other assetbacked securities (as further described in the prospectus) and in derivative instruments that provide investment exposure to such securities. The Sub-Fund investments may have interest rates that are fixed, variable or floating.

The Sub-Fund may also invest in other fixed income securities, including, but not limited to, bonds, notes, and other fixed income instruments (including Rule 144A and Reg S securities) issued by

governmental or private-sector issuers. The Sub-Fund may invest in derivative instruments such as options, futures, swaps, credit default swaps, private placements and restricted securities. The Sub-Fund may also purchase or sell securities on a when-issued, delayed delivery or forward commitment basis.

On an ancillary basis, the Sub-Fund may hold temporarily cash and cash equivalents up to 20% of its net assets. This percentage may exceptionally be exceeded if the board of directors considers this to be in the best interests of the shareholders.

The Sub-Fund may use currency derivatives for a notional amount close to 100% of the Sub-Fund's net assets

Sustainable Investment Approach: This is an ESG Promotion Sub-Fund. This Sub-Fund promotes and integrates ESG factors and Sustainability Risks in its investment strategy within the meaning of Article 8 of the SFDR and promotes ESG factors and Sustainability Risks as described in Appendix V – Sustainability Disclosures www.tcw.com/en/Literature/Prospectus.

Intended retail investor:

This product is intended for investors who are prepared to take on a relatively moderate level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment. This ranking is typically used to indicate a level of risk that is greater than other Sub-Funds that invest in assets such as bonds issued by organizations with high credit quality domiciled in developed markets, but less than Sub-Funds that invest in assets such as equity.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at www.tcw.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of TCW Global Securitized Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years			
Investment: USD 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum: There is no minimum guaranteed return			
Stress	What you might get back after costs	8,640 USD	8,420 USD
	Average return each year	-13.63%	-3.38%
Unfavourable ¹	What you might get back after costs	9,460 USD	10,130 USD
	Average return each year	-5.44%	0.25%
Moderate ²	What you might get back after costs	10,150 USD	11,670 USD
	Average return each year	1.54%	3.14%
Favourable ³	What you might get back after costs	10,860 USD	12,230 USD
	Average return each year	8.60%	4.11%

¹ This type of scenario occurred for an investment between September 2021 and December 2023.

² This type of scenario occurred for an investment between August 2018 and August 2023.

³ This type of scenario occurred for an investment between December 2015 and December 2020.

What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depositary/custodian, Société Générale Luxembourg, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	158 USD	880 USD
Annual cost impact (*)	1.6%	1.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7% before costs and 3.1% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 0.0%. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.4% of the value of your investment per year.	142 USD
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	16 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for medium to long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which the banks are normally open for business in Luxembourg and the New York Stock Exchange.

How can I complain?
