Source: Lipper Limited from 05 September 2018 to 28 February 2026. All figures show total returns with dividends and/or income reinvested, net of all charges. Performance does not take account of any costs incurred when investors buy or sell the fund. Returns may vary as a result of currency fluctuations if the investor's currency is different to that of the class.

Market volatility risk

The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

*The OCF (ongoing charge figure) covers the annual operating expenses of running the fund. Additional costs may be incurred, such as portfolio transaction costs and transfer taxes, which may reduce performance. It is calculated using the most recent data available. Further information about the fund's charges can be found in the Key Investor Information Document and by visiting: artemisfunds.com/funds/charges-and-costs/

Risk considerations

To ensure you understand whether this fund is suitable for you, please read the Key Investor Information Document (KIID/KID) which is available, along with the fund's Prospectus, from [artemisfunds.com](https://www.artemisfunds.com) or [fundinfo.com](https://www.fundinfo.com)

Market volatility risk

The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

Currency risk

The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.

Charges from capital risk

Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.

Emerging markets risk

Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.

China risk

The fund can invest in China A-shares (shares traded on Chinese stock exchanges in Renminbi). There is a risk that the fund may suffer difficulties or delays in enforcing its rights in these shares, including title and assurance of ownership.

ESG risk

The fund may select, sell or exclude investments based on ESG criteria; this may lead to the fund underperforming the broader market or other funds that do not apply ESG criteria. If sold based on ESG criteria rather than solely on financial considerations, the price obtained might be lower than that which could have been obtained had the sale not been required.

Risk reward profile

Potentially lower rewards ← Lower risk Potentially higher rewards → Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The SRRRI is calculated on an ongoing basis and reflects the level of risk as at the date shown on this factsheet. The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund. The figure highlighted in the risk reward profile is the Synthetic Risk and Reward Indicator (SRRRI). Benchmark

MSCI EM (Emerging Markets) Index

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark.

The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

Other information

This is a marketing communication. Before making any final investment decisions, and to understand the investment risks involved, refer to the fund prospectus and KIID/KID, available in English and in your local language (depending on local country registration), from the relevant fund page or literature section on www.artemisfunds.com. The documents can also be found on www.fundinfo.com.

Artemis does not provide investment advice on the advantages or suitability of its products and no information provided should be viewed in this way. Artemis only provides information about its own products and services and does not advise investors. Should you be unsure about the suitability of an investment, you should consult a suitably qualified professional adviser.

Investment in a fund concerns the acquisition of units/shares in the fund and not in the underlying assets of the fund.

Reference to specific shares or companies should not be taken as advice or a recommendation to invest in them.

Société d'Investissement à Capital Variable (SICAV) funds are investment funds domiciled in Luxembourg. They are authorised and regulated by the Luxembourg based EU regulator, the Commission de Surveillance du Secteur Financier (CSSF). Artemis Funds (Lux) (the "Company") are SICAV funds and are therefore not authorised and regulated by the UK Financial Conduct Authority ("FCA"). They are, however, recognised under the UK Financial Conduct Authority's (FCA) Overseas Fund Regime (OFR). Potential and current investors in the UK should be aware that, although the Company is recognised by the UK FCA for the purposes of distribution, the activities of the Company, the UK Representative, the Management Company, or the Depositary are not subject to the rules and regulations made under the Financial Services and Markets Act 2000 for the protection of investors. As a result, UK investors will not be protected by the UK Financial Services Compensation Scheme (FSCS) for financial losses suffered as a result of any of the mentioned bodies being unable to meet their liabilities to Shareholders, as these rules generally do not apply to an investment in the Company. In addition, UK investors will not be able to refer a complaint against the mentioned bodies to the UK Financial Ombudsman Service ("FOS"). We recommend that you get independent financial advice before making any investment decisions. The FCA introduced a package of measures during 2024 called the Sustainability Disclosure Requirements (SDR). The Company is not subject to these requirements.
