Risk Summary for Non-Mainstream Pooled Investments
Estimated reading time: 2 min Because these funds are not authorized or recognised funds in the United Kingdom (UK), the Financial Conduct Authority (FCA) considers this investment to be very complex and high risk. While this investment is unregulated in the UK, it is authorised in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.
What are the key risks?
1. You could lose all the money you invest • If the fund fails, there is a high risk that you will lose all your money. • Advertised rates of return aren't guaranteed. This is not a savings account. You could earn less money than expected or nothing at all. A higher advertised rate of return means a higher risk of losing your money. If it looks too good to be true, it probably is.
2. You are unlikely to be protected if something goes wrong • The Financial Services Compensation Scheme (FSCS), in relation to claims against failed regulated firms, does not cover investments in collective investment schemes that are unregulated in the UK. You may be able to claim if you received regulated advice to invest in one, and the adviser has since failed. Try the FSCS investment protection checker here. https://www.fscs.org.uk/check/investment-protection-checker/ • Protection from the Financial Ombudsman Service (FOS) does not cover poor investment performance. If you have a complaint against an FCA regulated firm, FOS may be able to consider it. Learn more about FOS protection here. https://www.financial-ombudsman.org.uk/consumers
3. You are unlikely to get your money back quickly • This type of fund could face cash-flow problems that delay payments to investors. It could also fail altogether and be unable to repay any of the money owed to you.
4. Don't put all your eggs in one basket • Putting all your money into a single business or type of investment for example, is risky. Spreading your money across different investments makes you less dependent on any one to do well. • A good rule of thumb is not to invest more than 10% of your money in high-risk investments. https://www.fca.org.uk/investsmart/5-questions-ask-you-invest • You may wish to get financial advice before deciding to invest.
If you are interested in learning more about how to protect yourself, visit the FCA's website: https://www.fca.org.uk/investsmart For further information about unregulated collective investment schemes (UCIS), visit the FCA's website: https://www.fca.org.uk/consumers/unregulated-collective-investment-schemes

RISKS (APPLICABLE TO ALL SUB-FUNDS)

The performance of the Shares in the Sub-Funds depends on the performance of the underlying investments. If the value of the investments of the Sub-Funds fluctuates, this will lead to fluctuations in the value of the Shares as well. Due to the uncertainty of the future performance of the investments of the Sub-Funds, as well as of the Shares themselves, no guarantee can be given for the success of the investment and it cannot be guaranteed that an investor will receive back the amount of the

capital invested by a Shareholder when redeeming Shares. The latter will only be the case if the Shares achieve an increase in value which is at least equal to the costs and fees incurred by the investor – particularly the sales charge – and offsets the transaction costs incurred in connection with the purchase and sale of the investments of the Sub-Funds. Specific attention is drawn to the risks appearing below. For a complete description of all the risks for the Sub-Fund that the Company is aware of, please refer to the Section 2) Investment Objectives and Policies, sub-section “Risk Warnings” in the general part of the Prospectus:

OTHER RISKS DISCLOSURES

No investment guarantee equivalent to deposit protection: An investment in the Company is not of the nature of a deposit in a bank account and is not protected by any government, government agency or other guarantee scheme that may be available to protect the holder of a bank deposit account.

Past performance: Past performance does not necessarily indicate future performance. It can in no way provide a

guarantee of future returns. For those Sub-Funds or Share Classes which are newly established or have yet to launch, no historical performance is currently available.

Portfolio transaction charges: The difference at any one time between the subscription and redemption price of Shares (taking into account any portfolio transaction charges payable) in any Sub-Fund means that investors should view their investment as for the medium to long term.

Potential conflicts of interest: The Investment Manager may effect transactions in which it has, directly or indirectly, an interest which may involve a potential conflict with its duty to the Company. The Investment Manager shall not be liable to account to the Company for any profit, commission or remuneration made or received from or by reason of such transactions or any connected transactions nor will the Investment Manager's fees, unless otherwise provided, be abated. The Investment Manager will ensure that such transactions are effected on terms which are not less favourable to the Company than if the potential conflict had not existed.

IN VIEW OF THE RISKS DESCRIBED ABOVE WITH WHICH THE PURCHASE OF SHARES IS ASSOCIATED, IT IS RECOMMENDED THAT INVESTORS OBTAIN PROFESSIONAL ADVICE ON WHETHER THE COMPANY, OR ANY OF ITS SUB-FUNDS, IS A SUITABLE INVESTMENT FOR THEM.

It is therefore possible that any of them may, in the due course of their business, have potential conflicts of interest with the Company or any Sub-Fund. When such conflicts of interest arise, each will at all times have regard in particular but without limitation to their obligations under any agreement to which it is a party or by which it is bound to the Company or any Sub-Fund and to act in the best interests of shareholder and will seek to resolve such conflicts fairly. There is no prohibition on the Company entering into any transactions with the Management Company, the Investment Manager, the sales agents, the distributors, the Administrative Agent, or the Depositary or with any of their affiliates, provided that such transactions are carried out as if effected on regular commercial terms negotiated at arm's length. Any kind of conflict of interest is to be fully disclosed to the Management Company, and where applicable, to the Board of Directors. In the event that such conflicts do arise, each of such persons has undertaken or will be requested by the Company to undertake to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the Company and the shareholders are treated fairly. The potential sources of conflicts of interest between the Company, the Management Company and the Shareholders and Citigroup affiliates including the Investment Manager include the following:

- a) The Investment Manager or any of its branches or affiliates may also act as distributors of the Company ("Citi Distributors"). Where this is the case they will be compensated for their services through the sharing of the investment management fee. Where Citibank, N.A., acts as both a Citi Distributor and Investment Manager, it will in most instances receive higher compensation for selling the Citi Funds than they would receive if they sold a similar product of a non-affiliated entity. This additional compensation provides an incentive for Citibank, N.A. to propose Citi Funds over the funds of other non-affiliated

entities and represents a conflict of interest that potential investors should consider carefully.

- b) Citigroup and its affiliates and employees may purchase and sell for their own account securities in which the Company may also invest. In addition, in the normal course of business and subject to the section "Investment Restrictions", the Company may enter into temporary borrowing arrangements with, and purchase and sell assets from and to Citigroup affiliates provided that the transactions are done on an arm's length basis. In addition, Citigroup affiliates may give investment advice to other clients in respect of, or manage third-party funds that are invested in, the same securities in which the Company will invest.
- c) As Citigroup affiliates include major banking institutions, such affiliates may lend money to many of the underlying funds, companies or countries in which the Company will invest. Credit decisions that Citigroup affiliates make in respect of such companies or countries could have an impact on the market value of the securities in which the Company invests.
- d) Citigroup affiliates also engage in other activities involving or affecting the securities in which the Company will invest. In particular, Citigroup affiliates may be involved in origination of transactions concerning such securities, underwriting such securities and acting as broker-dealer in respect of such securities. In addition, Citigroup affiliates may perform other services such as but not limited to intermediary/distributor, transfer agent, registrar, custodian and administrator services for the Company, underlying funds and companies in which the Company invests, and receive fees, commissions and other remuneration therefor. For example, the Investment Manager is a Citigroup affiliate.
- e) In conjunction with their various activities, Citigroup affiliates may come into possession of confidential information that could, if known to the public, affect the market value of the securities in which the Company will invest. In accordance with internal policies, Citigroup affiliates will not disclose such information to the Company or use such information for the benefit of the Company.
- f) Subject to the section "Investment Restrictions" of the Prospectus and to the provisions of applicable Luxembourg and foreign laws (if any), the Company may invest in Transferable Securities dealt with on a Regulated Market issued by Citigroup or its affiliates or issued by legal persons that subsequently become affiliates of Citigroup (collectively "Citigroup Securities"), if such investments comply with the investment policy of the Sub-Fund. Such dealings shall be made on an arm's length basis and only if deemed by the Investment Manager to be in the interests of the Shareholders. Investments in Citigroup Securities that are equity or equity related shall also be subject to internal restrictions imposed by management limiting such investments to no more than the representation of the relevant Citigroup Securities in the benchmark indicated in the Sub-Funds' Annexes, as internally determined by management, which may change from time to time. Subject to the above, the Investment Manager has substantial discretion as to whether or not to invest the Sub-Fund's assets in Citigroup Securities and the amount of any such investment. In addition (and as with other securities held by the Company), the Investment Manager may also invest in Citigroup Securities for the purpose of limiting the risk of variance against the relevant benchmark. Where the Investment Manager determines to invest in Citigroup Securities, such investment may represent a significant portion of the Sub-Fund's assets within the limitations set forth in the section headed "Investment Restrictions".
- g) Certain Sub-Funds invest into underlying funds which are sponsored, managed or sub-managed by the Investment Manager or an affiliate of the Company's initiator acting

through one of its branches. Based, among other things, on the potential for an increase in the amount of assets under management, the Investment Manager has an incentive to allocate Sub-Fund assets to those underlying funds which are sponsored, managed or sub-managed by the Investment Manager or an affiliate of the Company's initiator acting through one of its branches.

In various jurisdictions (including, without limitation, the European Union and the United States) national authorities have certain powers to manage and resolve banks, broker dealers and other financial institutions (including, but not limited to, Citi) when they are failing or likely to fail. There is a risk that the use, or anticipated use, of such powers, or the manner in which they are exercised, may materially adversely affect (i) your rights under certain types of unsecured financial instruments (including, without limitation, BRRD Financial Instruments), (ii) the value, volatility or liquidity of certain unsecured financial instruments (including, without limitation, BRRD Financial Instruments) that you hold and / or (iii) the ability of an institution (including, without limitation, a BRRD Entity) to satisfy any liabilities or obligations it has to you. In the event of resolution, the value of BRRD Financial Instruments may be reduced to zero and or liabilities may be converted into ordinary shares or other instruments of ownership for the purposes of stabilisation and loss absorption. The terms of existing BRRD Financial Instruments (e.g., date of maturity or interest rates payable) could be altered and payments could be suspended.

There can be no assurance that the use of any BRRD resolution tools or powers by the BRRD Resolution Authority or the manner in which they are exercised will not materially adversely affect your rights as a holder of BRRD Financial Instruments, the market value of any investment you may have in BRRD Financial Instruments and/or a BRRD Entity's ability to satisfy any liabilities or obligations it has to you. You may have a right to compensation from the relevant authorities if the exercise of such resolution powers results in less favourable treatment for you than the treatment that you would have received under normal insolvency proceedings. By accepting any services from Citi, you confirm that you are aware of these risks.
